# Introduction

Estate agents are required to provide consumers with 'material information' in property listings to ensure they can make an informed decision when buying a property. Material information is information that the average person needs in order to make an informed transactional decision basically, whether a person decides to enquire further, view, or buy /rent a property.

The estate agent you're buying from is dedicated to helping people find the right property for them and, as such, is providing this information so that you can make an informed decision.

If you have any questions about the information contained in this report, please contact your estate agent.

A very early-stage piece of land has been identified as one of many potential options for future housing development in Warwickshire for 2029. There are more than 500 sites on the longlist, and they have been ranked by suitability. This particular area, accessed from the T-junction on the road, falls into the lower half of that list. We've also spoken with members of the parish council, who indicated that it's highly unlikely to progress through planning because the proposed mitigation measures are considered insufficient at this stage.
