Three Bridge Cottages is an attractive two-bedroom terraced home, believed to date from around 1900, with the benefit of a substantial two-storey extension added during the 1980s. In recent years the property has been comprehensively modernised and tastefully improved to create a stylish contemporary home, ideally suited to first-time buyers, couples, young families or those looking to downsize without compromising on quality or convenience.

The property occupies a pleasant position on the outskirts of Newark, enjoying a semi-rural feel whilst remaining within easy reach of highly regarded local schooling, everyday amenities and Newark town centre, which lies approximately one mile away.

The well-presented living accommodation begins with a comfortable living room leading through to an impressive open-plan dining kitchen, creating an excellent sociable living space. The kitchen was refitted in 2016 with an attractive range of contemporary Shaker-style units incorporating integrated appliances and generous work surface space. In addition, there is a useful cellar compartment beneath the property which has been professionally tanked, providing excellent dry storage. To the first floor, the landing incorporates fitted storage cupboards together with loft access and leads to two well-proportioned bedrooms and a modern family bathroom, fitted with a white suite and a shower over the bath.

Outside, the property enjoys a delightful enclosed rear garden offering an excellent degree of privacy, being well screened by mature trees and shrubs. Immediately adjoining the house is a decked seating terrace, ideal for outdoor dining and entertaining, beyond which a generous lawn extends to the rear boundary, providing an excellent space for children to play or for keen gardeners to enjoy.

This mid terraced house is constructed with brick under a concrete interlocking tiled roof. There is a later brick built two storey extension under a flat roof added in the 1980s. The central heating system is gas fired with a new boiler being fitted in 2022. The windows are uPVC double glazed with recently replaced double glazing units. A new

composite front door and uPVC double glazed rear entrance door were fitted in 2022.

The living accommodation is arranged over two levels and can be described in more detail as follows:
