

Heathbarn Farm Buildings, Woolbeding Estate, South Downs

- ***What3words: ///admiringly.repeat.swing***

Heathbarn Farm Buildings are a horseshoe cluster of historic farm buildings located off the A272. They have been used for a number of different commercial uses and are now in need of refurbishment.

The National Trust is looking for a tenant to care for these buildings and operate a sustainable business. Our ideal tenant would align with National Trust values, run a sustainable business and would engage with the community. We are interested in hearing from interested individuals and businesses in all industries.

The successful tenant will enter into a Commercial Tenancy with the National Trust (contracted out of the Landlord and Tenant Act 1954).

Interested parties will be invited to a viewing day on either 22nd or 24th April where the National Trust will be on site and available to answer questions. We strongly recommend all parties to come along to the viewing day.

For more information and to book onto the viewing day, please contact Hannah.Davies@nationaltrust.org.uk.
