Every now and then, we get the opportunity to sell an amazing property. - this is one of those times!
If you are seeking a beautiful home by the see, complete with stunning views, this is the one for you.

This incredible property sits towards the middle of a large plot, that the owner tells us extends to one third of an acre. An immaculate front garden incorporates a gravel driveway with parking space for 5 or 6 cars, or a caravan and a motorhome - well, plenty of room for whatever you have got. Additional, secure parking is catered for by an enormous 24' x 12' garage. Oh, and the high quality workshop/shed is the same size.

Inside, all rooms have a view of the sea. Yes, even the ground floor bathroom, if that takes your fancy!

You can enjoy the view from the large lounge and adjacent dining room through a large bay window. A stylish conservatory further extends the living space into the rear garden.

The kitchen diner extends to the full depth of the property and, depending on your family's needs, offers more, flexible space. And, in case you haven't guessed, that stunning view is fully on show.

Upstairs, there are two large bedrooms, one with a slightly incomplete ensuite, both benefitting from large dormer windows.

The rear garden is even bigger than the front, with plenty of room to expand, if you need more bedrooms or a home office.

Maintained to an extremely high level by the present owner, new windows and doors were fitted throughout just 5 years ago. For further piece of mind, a top of the range Worcester boiler was fitted earlier this year, and has a warantee until 2031.

Properties of this quality, in this location, very rarely come to market. So, time to stop dreaming and buy the home you have always promised yourself.
