A three bedroom end of terrace home offering an exciting opportunity for buyers looking to modernise, improve and potentially extend (subject to the necessary consents). Occupying a generous end position, the property already provides well proportioned accommodation including a spacious lounge, kitchen/breakfast room, sun room, ground floor cloakroom and three good sized bedrooms. While the house would now benefit from comprehensive updating throughout, it offers excellent potential to create a fantastic long term family home. To the front, a generous driveway provides off road parking for three vehicles, while a garage style door opens onto an additional hardstanding area, ideal for further parking, storage or offering exciting scope for a side extension, similar to neighbouring properties. We have tried to make sure that these particulars are accurate but, to a large extent, we have to rely on what the seller tells us about the property. Once you find the property you want to buy, you will need to carry out more investigations into the property than it is practical or reasonable for an estate agent to do when preparing sales particulars. For example, we have not carried out any kind of survey of the property to look for structural defects and would advise any homebuyer to obtain a surveyor's report before exchanging contracts. If you do not have your own surveyor, we would be pleased to recommend one. We have not checked whether any equipment in the property (such as central heating) is in working order and would advise homebuyers to check this. You should also instruct a solicitor to investigate all legal matters relating to the property (e.g. title, planning permission, etc) as these are specialist matters in which estate agents are not qualified. Your solicitor will also agree with the seller what items (e.g. carpets, curtains, etc) will be included in the sale.
