The Property

Accommodation

Inside

The property is entered via a welcoming hallway which provides access to the principal ground floor accommodation. The sitting room is well proportioned and offers a comfortable space for everyday living, enjoying a pleasant outlook and good natural light.

The kitchen forms the heart of the home and is fitted with modern two-tone shaker-style units, with granite worktop on the island and a comprehensive range of built-in appliances including a fridge freezer, double ovens, wine cooler and dishwasher. A central island provides both additional preparation space and an informal seating area, making this a practical and sociable room. Doors open directly onto the rear garden, taking advantage of the views across the fields beyond.

A useful utility area and a ground floor cloakroom complete the ground floor accommodation, adding to the overall functionality of the layout. Underfloor heating runs throughout the ground floor, providing a comfortable and efficient heating solution.

Stairs rise to the first floor where the landing immediately stands out as a focal point of the upper level. Spacious and light, it feels more like a continuation of the living space rather than

simply a hallway, providing an open and comfortable circulation area with access to all bedrooms.

The principal bedroom is well proportioned and enjoys views to the rear, along with the benefit of a dedicated en suite shower room. A particular feature of this room is the his and hers walk-in wardrobe area, offering excellent storage and dressing space while keeping the bedroom itself uncluttered.

There are three further bedrooms, each well sized and flexible in use, suitable for family accommodation, guests or home working. These rooms are served by a family bathroom, completing the first floor layout and providing practical accommodation for a range of needs.

Outside

The property enjoys a west-facing rear garden which is laid to lawn with a paved patio area and dedicated barbecue space, ideal for outdoor dining and entertaining. The garden backs directly onto open fields, creating an open and attractive outlook while still feeling private.

To the right-hand side of the property is a single garage, with driveway parking positioned in front. The garage can also be accessed directly from the rear garden via a side gate, providing a practical connection between the garden and parking area. This arrangement adds to the overall functionality of the outdoor space and makes the property well suited to everyday family use.
