THE DEVELOPMENT

HOMES AND PENTHOUSES BESIDE THE CENTRE OF TORRE DEL MAR

Marevo Real Estate presents this residential complex located in Torre del Mar, a proposition of elegant, functional architecture with interior spaces designed to offer comfort and wellbeing. It comprises 142 homes of 1, 2 and 3 bedrooms, as well as penthouses of 1, 2 and 3 bedrooms, priced from €269,950 up to €279,950.

The development sits a step from the centre of Torre del Mar, so it has all the necessary conveniences and infrastructure in the vicinity: hospitals, schools, shopping areas, supermarkets, parks, sports centres, petrol stations and pharmacies. This location, in the heart of the eastern Costa del Sol, combines closeness to everyday services with proximity to the sea and the area's relaxed atmosphere.

The homes come in typologies of 1, 2 and 3 bedrooms, plus penthouses in the same configurations, with generous terraces and light-filled rooms that provide a pleasant sense of tranquillity and comfort. The architecture, elegant and functional, has been conceived to offer the life its residents deserve.

Among the remarkable details, all the homes include a garage space and a storage room in the price.

The kitchens are delivered furnished with natural stone worktops, and all the bedrooms have built-in wardrobes.

Ducted air conditioning reaches the living-dining room and all the bedrooms, and the energy efficiency rating is A.

As for communal areas, the development has large landscaped spaces and a communal saltwater-chlorination pool, surroundings designed for the enjoyment, rest and wellbeing of the whole family within the complex itself.

For its central yet seaside location, its complete standard equipment and its excellent energy rating, this development is attractive both for those seeking a comfortable, well-connected home and for those wishing to invest in one of the most cherished towns of the eastern Costa del Sol.
