SITUATION & AMENITIES

In terms of location, the property enjoys the best of all worlds, as the position is almost semi-rural, backing onto the Venn stream (a tributary of the River Taw) and with views over open meadows beyond, yet the village church is across the road and pre school and primary school within walking distance. There are also bus services nearby which run to Barnstaple, which is less than 10 minutes by car, and as the regional centre, offers the area's main business, commercial, leisure and shopping venues, as well as live theatre and district hospital. On the periphery of Barnstaple is the North Devon Link Road, which runs on in a further 45 minutes or so to Jct.27 of the M5 Motorway, and where Tiverton Parkway offers a fast service of train to London Paddington in just over 2 hours. A branch railway line links Barnstaple with Exeter St David's and Exeter Central. Just over half an hour by car are the renowned coastal resorts of Croyde, Instow, Saunton (also with Championship Golf Course), Putsborough and Woolacombe. Exmoor National Park is a similar distance. The area is well served by a good range of state schools, as well as private schools with Kingsley at Bideford, West Buckland and Blundell's at Tiverton. Another benefit of the property is the proximity to lanes which lead to open countryside and miles of excellent public footpaths. Returning to the stream below the property, a popular pursuit of the current vendors is to kayak from the bottom of the garden to the River Taw and back.

DESCRIPTION

1 Coddlen Hill House comprises a wing of a former vicarage, understood to have originally been the largest vicarage in Devon, built in 1841 but divided into three dwellings around 1950. The property is Grade II listed as being of architectural and historical importance, and presents elevations of painted render beneath a slate roof, with Marland cream brick chimney stacks. The majority of the windows benefit from secondary glazing by Mitchell and Dickinson. The façade features ornate detail and has a Flemish influence. We understand that the double height kitchen/dining room extension was added during the 1980s and has double glazed windows made with sustainable Accoya timber. The accommodation is arranged over four floors and combines many original period features with 21st Century refinements. Most rooms benefit from lofty ceilings and very comfortable head heights. The house is complemented by very attractive landscaped gardens, which are well-established, well-tended and tiered, following the grading to the land down to the Venn stream, which is a very attractive feature. The gardens amount to just under half an acre. This is certainly a property which needs to be viewed internally to be fully appreciated.

OUTSIDE

The property is approached initially over an open pillared shared entrance, which serves the three dwellings. This then leads on to private designated parking for up to four vehicles, in addition to an ATTACHED DOUBLE GARAGE which features twin garage doors, separate pedestrian access, eaves storage, and has power and light connected. To the side of this is a LOG STORE, and adjoining the parking area is a deep bank of shrubbery and mature trees, which lead on to the side of garage and beyond, where the garden opens out as a wildflower meadow bounded by stepping stone pathway to the left and grass pathway to the right, which in turn is bounded by a continuation of the walled border stocked with masses of plants and shrubs. There is a small TERRACE to the front of the house – an ideal place to enjoy the sun and different vistas. An open archway then leads to the side of the property, where there is a DETACHED GARDEN STORE with light. A pathway then leads on to the rear of the house, where there is a paved TERRACE bounded by low retaining walls, which leads around to the UTILITY LOBBY and adjacent DUSTBIN STORAGE. Steps lead from the TERRACE flanked by cascading planters to the UPPER GARDEN, which is laid to lawn. There is a 2nd paved TERRACE, a Japanese inspired border with water feature, and the lawns are interspersed with a number of mature and younger trees including several apple. From the UPPER GARDEN a gravel pathway meanders down through well-established and well-stocked borders, featuring grasses, to the lower KITCHEN GARDEN where there are four raised vegetable beds and a Hartley Botanic GREENHOUSE. Below this the next level features a large ornamental pond, bounded by mature trees and bamboo, and beyond a JETTY/PLATFORM adjoining the Venn stream. We understand that the gardens are a natural haven for visiting birds and wildlife.
