

Inkerman Street

Offers Over £150,000

Ben Rose Estate Agents are pleased to present to market this development opportunity, comprising a plot of land with an existing outbuilding, ideally located on Inkerman Street in Preston, Lancashire. Positioned within close proximity to the University of Central Lancashire and Preston city centre, this site offers strong potential for a variety of uses, subject to the necessary planning permissions. The property benefits from planning in principle for the development of either nine apartments or four industrial units, making it an attractive prospect for investors and developers alike. The area is also well connected via local bus routes and nearby motorway networks such as the M6 and M55, further enhancing its accessibility.

The site itself currently features an outbuilding, offering a starting point for redevelopment or potential interim use. The plot provides a flexible layout that could be adapted to suit a variety of development schemes, depending on buyer requirements and the relevant permissions obtained. With planning in principle already established, the groundwork has been laid for future development, streamlining the process for prospective purchasers.

Externally, the plot is accessed directly from Inkerman Street and is situated within a well-established urban area. The surrounding environment is a mix of residential, educational, and commercial properties, supporting a range of potential end uses. Overall, this is a straightforward and versatile opportunity in a highly convenient location, offering significant scope for development or investment, with further details of planning permissions available via Preston City Council's website.
