The property is situated in a central position close to all amenities. Close by is the attractive Chichester Harbour and the excellent opportunities for sailing.

## Description

The property is an attractive period Grade II\* listed building over three floors with a basement. The attractive facade with three window bays and flint elevations give the property its name. Behind the facade (where the listed nature of the building is focused) the property had been converted to bank premises and has a 1960s modern extension to the rear.

The property, particularly at the first floor front, has high ceilings and large windows making it a perfect candidate to become a light and breathable living space.

The rear car park can provide up to 10 cars currently but as part of the development comprises infill this reduces down to four spaces plus a garden area.

Whilst the current planning permission allows for conversion to four apartments it would also make a wonderful single dwelling, or could be retained to provide excellent E Class premises either as a single occupation or let in its individual parts.
