Energy Efficiency has been rated to meet the requirements of the European Union's Energy Efficiency Directive (EED) and the Energy Labelling Directive (ELD). The rating is based on the property's energy performance and is subject to change. The rating is not a guarantee of energy efficiency and is not a guarantee of energy savings.

| Energy Efficiency Rating                    |                         |           |
|---------------------------------------------|-------------------------|-----------|
|                                             | Current                 | Potential |
| Very energy efficient - lower running costs |                         |           |
| (92 plus) A                                 |                         |           |
| (81-91) B                                   |                         |           |
| (69-80) C                                   |                         |           |
| (55-68) D                                   |                         |           |
| (39-54) E                                   |                         |           |
| (21-38) F                                   |                         |           |
| (1-20) G                                    |                         |           |
| Not energy efficient - higher running costs |                         |           |
| England & Wales                             | EU Directive 2002/91/EC |           |

| Environmental Impact (CO <sub>2</sub> ) Rating                  |                         |           |
|-----------------------------------------------------------------|-------------------------|-----------|
|                                                                 | Current                 | Potential |
| Very environmentally friendly - lower CO <sub>2</sub> emissions |                         |           |
| (92 plus) A                                                     |                         |           |
| (81-91) B                                                       |                         |           |
| (69-80) C                                                       |                         |           |
| (55-68) D                                                       |                         |           |
| (39-54) E                                                       |                         |           |
| (21-38) F                                                       |                         |           |
| (1-20) G                                                        |                         |           |
| Not environmentally friendly - higher CO <sub>2</sub> emissions |                         |           |
| England & Wales                                                 | EU Directive 2002/91/EC |           |
