

Property Description: High quality flat located in Shaddon Mill, Carlisle, with 2-bedroom and 2-bathroom offering a spacious and practical living space. The property features an open-plan lounge and kitchen-diner, providing a modern and functional layout. The kitchen is equipped with essential appliances, including a fridge freezer, oven/hob, dishwasher, and washing machine, ensuring convenience for everyday living. Both bedrooms are double-sized, En-suite bathroom and main bedroom. Secure car parking with allocated parking spaces, Supplied part-furnished. Situated within walking distance of Carlisle city centre, the flat enjoys proximity to local amenities, including shops, restaurants, and public transport links, making it a convenient location for daily activities. Council Tax Band 'C'.

Energy performance certificate (EPC)

APARTMENT 6 WEST BLOCK
SHADDON MILL
SHADDONGATE
CARLISLE
CA2 5WB

Energy rating

B

Valid until:

15 June 2031

Certificate number:

1700-8169-0522-3092-3693

Property type

Mid-floor flat

Total floor area

89 square metres

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

This property's energy rating is B. It has the potential to be B.

[See how to improve this property's energy efficiency.](#)

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D
the average energy score is 60

Score	Energy rating	Current	Potential
92+	A		
81-91	B	83 B	83 B
69-80	C		
55-68	D		
39-54	E		
21-38	F		
1-20	G		

Breakdown of property’s energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property’s age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Sandstone or limestone, as built, insulated (assumed)	Good
Window	Fully double glazed	Good
Main heating	Boiler and underfloor heating, electric	Poor
Main heating control	Time and temperature zone control	Very good
Hot water	From main system	Poor
Lighting	Low energy lighting in all fixed outlets	Very good
Roof	(another dwelling above)	N/A
Floor	(another dwelling below)	N/A
Secondary heating	None	N/A

Primary energy use

The primary energy use for this property per year is 157 kilowatt hours per square metre (kWh/m2).

How this affects your energy bills

An average household would need to spend **£541 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £0 per year** if you complete the suggested steps for improving this property’s energy rating.

This is **based on average costs in 2021** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 1,097 kWh per year for heating
 - 2,918 kWh per year for hot water
-

Impact on the environment

This property’s environmental impact rating is C. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces	6 tonnes of CO2
-------------------------------	-----------------

This property produces	2.4 tonnes of CO2
This property’s potential production	2.4 tonnes of CO2

You could improve this property’s CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

The assessor did not make any recommendations for this property.
