

Bassleton Lane, Thornaby

Asking Price £195,000

This especially impressive, and spacious two double bedroom bungalow really is a fine example of its kind, and early inspection is strongly recommended.

Having undergone, recent, and significant updating throughout, both internally and externally, this is a property that is 'turn key' ready, and can be purchased with reassurance that no large expenditure is likely to be needed.

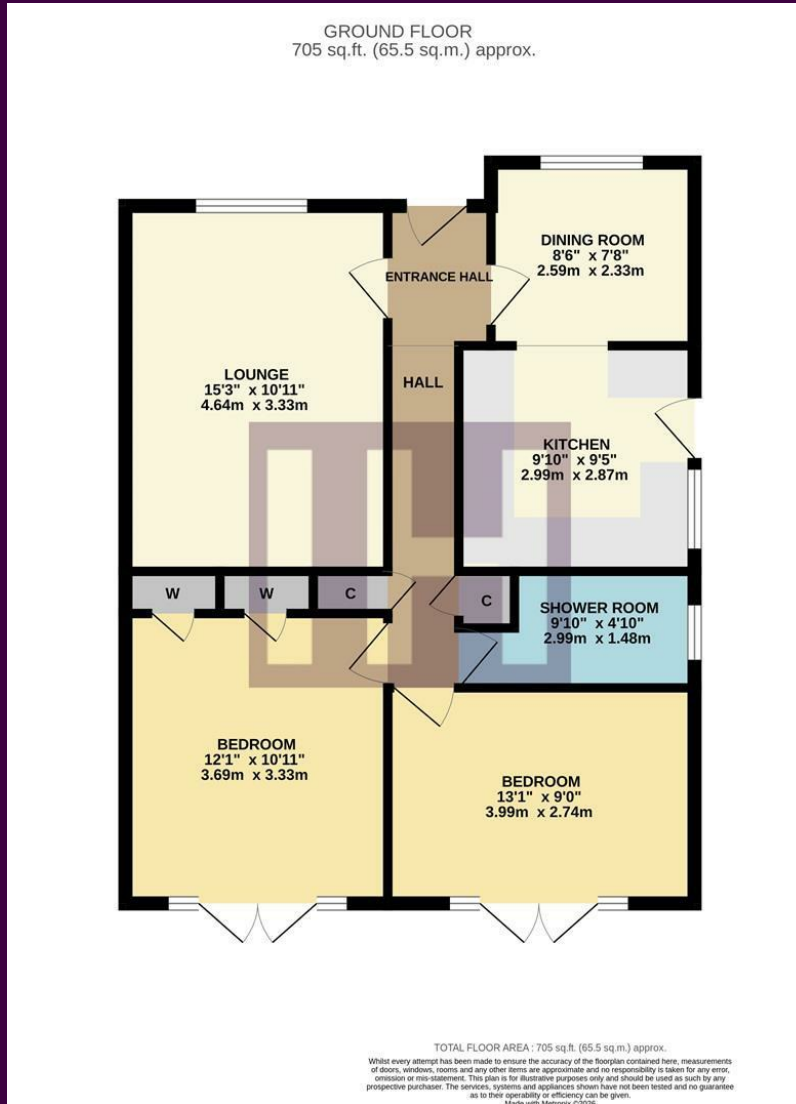

The double glazing has been fully replaced, including two sets of rear 'French' doors, along with the front and side access doors. The heating system has been fully replaced, and quality refitted 'Oak' internal doors are throughout. The modern kitchen and stylish refitted shower room are also feature worthy of special mention.

Tasteful and attractive, the internal accommodation very briefly comprises an entrance hall, spacious lounge, open-plan kitchen/diner, inner-hall, refitted shower room, and two double bedrooms, both with robes. The large loft is professionally half-boarded, and can be accessed from a replaced hatch with drop-down ladder and lighting.

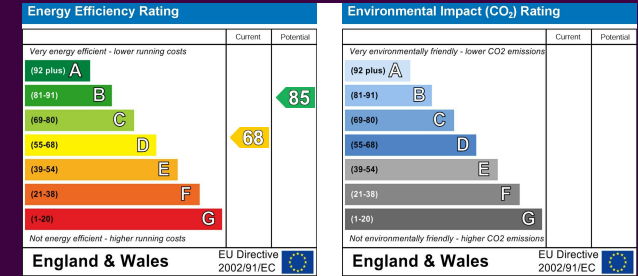

Externally, the re-laid resin drive allows ample off-road parking and approaches the garage, continuing to a path to the entrance and wrapping around the rear, along side the garage, where you find the westerly facing rear garden, with large re-laid patio, lawn and rear border of greenery and mature planting.
