DESCRIPTION

31 Baltic Way offers an appealing opportunity for contemporary waterside living in one of Totnes' most desirable modern developments. Built in 2018, the house combines striking modern architecture with generous, light-filled accommodation extending to approximately 1,961 sq ft.

A landscaped rear garden and substantial roof terrace provide excellent spaces for outdoor dining, entertaining and relaxation, while riverside walks and the amenities of Totnes are within easy reach. With versatile accommodation arranged over three floors, an integral garage and EV charging, the property offers an excellent balance of style, practicality and lifestyle.

ACCOMMODATION

The front door opens into a welcoming entrance hall with access to the integral garage, which incorporates a useful utility area with space and plumbing for appliances. A cloakroom is also positioned off the hall, with stairs rising to the upper floors.

To the rear, the spacious open-plan kitchen and dining room forms the heart of the home. The kitchen is centred around a central island, with integrated appliances and generous work surfaces. Alongside the kitchen is a spacious dining area, large enough to accommodate a long dining table, making it ideal for family meals and entertaining. From here, broad glazed doors provide direct access outside to the garden, creating a seamless connection between the indoor and outdoor living spaces.

The first floor provides the principal bedroom suite, with a dressing area and en suite shower room. Two further bedrooms are also arranged on this level and are served by the family bathroom.

On the second floor is a generous main sitting room together with a second sitting room, which could equally serve as bedroom four, a home office or occasional guest room. A cloakroom is also positioned on this floor, while doors from the second sitting room provide direct access onto the substantial roof terrace.

OUTSIDE

The property is approached from Baltic Way, with the integral garage providing secure parking as well as useful storage and an electric vehicle charging point.

To the rear is an attractive enclosed landscaped garden, accessed directly from the kitchen/dining room. Designed for relatively low-maintenance enjoyment, it provides an appealing setting for outdoor dining, entertaining and relaxation, with paved areas and established planting.

At second-floor level, the generous roof terrace creates a further outdoor living space and is accessed directly from the second sitting room / bedroom four. Its elevated position makes it a particularly appealing spot for seating, entertaining and enjoying the surroundings.
