The Land

The land is classified as grade 3/4 on the Agricultural Land Classification Map for the South West Region. Lots 1 and 2 are primarily described as "Freely draining slightly acid loamy soils" and lot 3 is primarily described as "Freely draining slightly acid but base-rich soils".

The land appears to be mostly stockproof but further investigation may be required and this is at the discretion of the prospective Tenant. Should you wish to complete further fencing works using relevant grants, this would be welcomed by the Landlord but any costs attributable to this shall be borne by the Tenant.

LOT 1

Lot 1 is marked on the below plan in red and consists of approximately 121.7 acres of land. LOT 2

Lot 2 is marked on the below plan in blue and consists of approximately 37.9 acres of land. The land is considered to have potential for arable. The shaded area within lot 2 is to be let on a separate 2-year grazing licence on the same terms as the FBT. This area is approximately 1.8 acres.

VIEWINGS

The land can be viewed unaccompanied and without appointment not before the 22nd of December to allow for the previous Tenant to vacate the holding. We ask all viewings be completed following appropriate Health and Safety protocols but are ultimately completed at your own risk.

ACCESS

Access to the land is shown on the lotting plan above. Two access tracks are shown in blue and yellow. Red crosses represent approximate locations of current and previous access points from the road/tracks.

The blue track is not registered with HM Land Registry. It is therefore not included in the Tenancy agreement. It is unclear as to the ownership of the track however it has been used to access the land for a number of years and maintained by the occupier.

The yellow track is not registered with HM Land Registry. It is therefore not included in the Tenancy agreement. However, on OS maps it is designated as "Other routes with public access" and therefore can be used freely to access the land.

Should the prospective Tenant wish to continue to access the land, it could be considered it is in their interest to maintain tracks where necessary.
