This handsome three storey town house has been in the same family for over sixty years and is set in a popular town centre road accessible to the shops, ferry terminals and local facilities. The house requires modernisation throughout, but is warmed by a modern gas central heating system with older style UPVC double glazing. The ground floor comprises entrance hallway, sitting room, dining room, compact kitchen and modern shower room. There are two double bedrooms on the first floor with a further two doubles found on the top floor. A small area of courtyard garden lies to the rear. The house now requires some substantial improvement works and likely extensions to meet the demands of modern living, but has been a much-loved and carefully maintained family home over many decades of the same ownership.
