Leasehold Information

This property benefits from a share of the freehold, offering purchasers greater control over the management and maintenance of the building. With little to no ground rent and more transparent service charges, it provides a cost-effective alternative to traditional leasehold ownership. The arrangement also allows for simpler and more affordable lease extensions, enhancing long-term value and appeal. Overall, it combines the structure of a leasehold with the added advantage of increased control and improved resale potential.

Ground rent is £1 per annum. This system affords the 3 apartment owners total control of any ongoing maintenance requirements of the building rather than being at the behest of a 3rd party freeholder.

The leaseholder will be a company set up by the existing owner of the building (e.g Migma Properties Horsea Ltd). The company will hold three shares, the owner of each apartment will be allocated 1 share, giving each apartment owner equal shares in the company, this will be carried out via each parties at the point of purchase.

Each apartment will come with a 999 year lease term.
