### DESCRIPTION

The property comprises a detached agriculturally tied bungalow, believed to have been built in 1964 of block construction beneath a tiled roof. The bungalow occupies an elevated position within 5.795 acres of land and enjoys a particularly private setting. The majority of the land has been thoughtfully developed over the past twenty years into an attractive woodland area containing a wide range of specimen trees, creating a mature and varied landscape around the property. While the bungalow offers well-proportioned accommodation, it is now in need of modernisation throughout, providing an opportunity for purchasers to update and personalise the property to their own requirements.

## ACCOMMODATION

The accommodation includes a sociable kitchen/dining room featuring a wood burner, together with a useful airing cupboard and separate pantry. The living room is a particularly light space, benefiting from two large picture windows which make the most of the natural light and provide attractive views across the gardens and countryside beyond. To the rear of the bungalow are two double bedrooms, both enjoying pleasant views over the surrounding land, together with a family bathroom. The original single-skin garage has been converted many years ago to provide additional internal space, now comprising a study, freezer room and a separate WC. A Worcester Bosch boiler is located within the attic space and supplies the LP gas central heating system, while the majority of the windows are fitted with uPVC double glazing

## OUTSIDE

The property is approached via a brick-paved gated driveway which provides ample parking. The gardens immediately surrounding the bungalow include areas of lawn, together with a productive kitchen garden, greenhouse and garden shed. The wider grounds extend to 5.795 acres and are predominantly laid to established woodland with a 109 different varieties of specimen trees planted over the last two decades - these include Fir, Spruce, Oak, Walnut, Cypress and Maple, creating a private and attractive natural environment full of wildlife. In addition, there is a useful timber and galvanised outbuilding suitable for storage or workshop use, which also incorporates two old railway carriages, to which there is separated gated access.

## SERVICES

Main electricity, water and private drainage via a septic tank. LPG fired central heating. Broadband availability: Ultrafast and Standard ADSL, Mobile signal: voice and data available (Ofcom).
