Looking for a modernised, detached bungalow with space and lots of off-street parking? Look no further, because this might just be the one for you. With three double bedrooms, two bathrooms and a large lounge, this spacious home is ready for you to move straight in.

The present owner has made high quality improvements throughout the property, from new windows and doors to a contemporary, new kitchen, new appliances and a new boiler and heating system. A high quality touch is the spacious dressing room and ensuite that serve the master bedroom. Offering a discreet and stylish solution to clothes storage, why doesn't every home have this great option?

Outside, a new driveway, gates, patio and landscaped garden make the most of the outside space. With parking for multiple vehicles inside the gates, there are two additional parking spaces on the road side of the gates - perfect for visitors to just pop in, and added safety for children and pets.

This property is classified as non-standard construction and although a mortgage was secured on it recently, following a surveyor's report, you will need to check with your lender.

Located a short walk from the town centre, (and with a bus stop just outside the gates), this high quality bungalow offers level access throughout, and lots of space where it is needed.

Early viewing is highly recommended.
