Welcome home

A stylish apartment in a vibrant location with plenty to do in the local area. Your own front door that opens onto a warm and friendly community. Shared areas where you can socialise with neighbours as much, or as little, as you want to. Visits from family or friends can last longer in our hotel-style guest suite with en-suite facilities.

That's what home feels like with McCarthy & Stone.

Taking care of you and your home

A House Manager is a friendly face on-site during the week. They run the development day-to-day* and is there to help keep everything tip-top.

We manage the maintenance of the exterior of the property, tidy communal areas and keep the shared garden looking lovely.

And that's not all. You can be reassured that everything and everyone is safe and secure – whether you're at home or on holiday – as the annual service charge also covers the provision and maintenance of an emergency call system, the lifts, intruder alert and door camera entry.

Taking care of our environment

Juliette House is sustainably built using the latest methods of construction, to ensure both the best quality build and to minimise the development's carbon footprint, during construction and as it's lived in.

There's peace of mind when it comes to energy bills too. Insulated walls retain heat, double-glazed windows and glass doors maximise natural light while keeping out the cold, and all electrical appliances provided, are energy efficient models.

During construction we focus on our environmental responsibilities too, with almost all of the waste generated on-site being reused or recycled.

To enhance nature and optimise biodiversity, native plants and shrubs are planted alongside new hedgerows and wildflower lawns to encourage a wide variety of wildlife.

Juliette House is built to high standards and is an ideal place to enjoy your retirement.

A home designed to make life easier

We build homes that give you the freedom to do more of the things you love. Each development nurtures a vibrant, active community and is built to high standards.

Juliette House comprises 35 one- and two-bedroom properties, each one finished and fitted with carpets, flooring and white goods. Thoughtful touches, such as easy-to-use kitchens, help make life a little easier too.

The thoughtful design of Juliette House is sympathetic to the Victorian charm of the seaside town of Westgate-on-Sea. The carefully tended beds that line the boundary complement this delightful façade and mature trees line the sides of the building.

The contemporary style of the reception and lobby area offers a warm welcome to homeowners, friends, and family members alike. From here you head down to the social heart of the development, the communal lounge.

From catching up over a morning coffee to an evening social event, it's designed to be filled with fun and laughter. Of course, if you just want to settle down with a good book or a newspaper, you'll find plenty of quiet spots too.

From the lounge, you can step out onto the terrace and into the garden that lies just beyond the patio doors. With lots of comfy seating, tables and a large eye-catching wooden pergola, it's the ideal spot for enjoying lovely views of the garden.

You can follow the path that winds around the development and beautifully maintained gardens. Selected for their vibrant colours or subtle hues, each plant and shrub has been carefully chosen to ensure this is a garden to enjoy all year round.

If you're green-fingered, there's a potting shed where you can prepare and care for your own cherished pots and planters. You're also welcome to tend to the raised planters.

The service charge explained

A service charge keeps our developments running smoothly and pays for facilities and support. If you have not paid a service charge before, you may have questions about how this works.

If you compare the services available at Juliette House with the facilities and running costs of your current property, we believe you'll find it represents good value for money.

Services covered include providing and maintaining:

- Access to on-site staff (hours may vary)
- The 24-hour emergency-call and intruder-alert system
- The door camera entry system
- Grounds maintenance and general gardening work
- Building repairs and general maintenance costs
- Buildings insurance
- Window cleaning (outside only)
- Water and sewerage costs
- Heating, lighting and cleaning of all shared areas
- Management Fee

The service charge is reviewed and calculated annually, it is reviewed with the involvement of all homeowners, so there are no unexpected bills.

Contingency Fund

Where larger repairs and asset replacement (such as lifts or the roof) are needed, alongside regular renovations; these costs are covered by a Contingency Fund – this is created through a fee that's included in the service charge.

As well as the regular payments as part of the service charge, the contingency fund is further 'topped-up' through contributions paid when the apartment is either sold to a new owner or let out to a new tenant. The percentage payable is set out in your lease.

We keep this cost at an appropriate level to maintain the development for everyone's benefit.

When you're ready to find out more, we'll happily explain these charges in more detail.
