- Attractive Grade II listed building with courtyard to rear
- The Pallant area of Chichester is formed in the majority by historic buildings both commercial and residential in form
- Located near the North Pallant Gallery
- Price ; £750,000

Location & Situation

Chichester is a Cathedral city, and the county town of West Sussex. It lies approximately 21 miles east of Portsmouth, 30 miles west of Brighton and 65 miles south of London.

The property has an excellent city centre location within walking distance of railway links. The road is a one-way street with a number of car parks nearby. Chichester city centre has close access to the A27, a major South Coast arterial route which links Brighton, Worthing, Portsmouth and Southampton. The A27 connects to the A3 which in turn provides access to the M25 and London.

Description & Accommodation

Hollybrook House is a Grade II listed three storey Georgian terraced property with basement, situated in the highly regarded Pallants area of Chichester. The building features rendered brick elevations, a mix of single and double glazed sash windows, and a pitched tiled roof, reflecting its early Georgian character.

The Pallants are formed predominantly of historic Georgian houses, many of which have been converted to office use over time, while the street scape has remained “largely unchanged in character since the early 18th century”. The area is recognised for its heritage significance, elegant architecture and proximity to cultural landmarks including the Pallant House Gallery.

The property is currently arranged as office accommodation but benefits from full planning consent for conversion to a single residential dwelling. The approved scheme includes demolition of the existing single storey rear extension and construction of a new contemporary kitchen extension with a frameless glazed link, creating a generous kitchen/breakfast room overlooking a modest courtyard.

Internally, the accommodation is arranged over three floors plus basement, providing eleven rooms, WC facilities, a shared kitchen area and a small rear courtyard. The basement is used for storage, with the upper floors configured as individual office rooms, offering strong potential for reinstatement as a high quality dwelling.

The property extends to approximately 2,442 sq ft (227 sq m) NIA, with a GIA of 2,784 sq ft (259 sq m)

Floor Areas cont.

We have also provided the gross internal area (GIA) which is the NIA above plus those excluded areas which is typically calculated for residential use.

Area (NIA)	Sq ft
