Maps

Coal Mining

CARL MYERS

BESPOKE ESTATE AGENT

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Maps

Conservation Areas

CARL MYERS

BESPOKE ESTATE AGENT

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Maps

Council Wards

CARL MYERS

BESPOKE ESTATE AGENT

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

Maps

Rail Noise

CARL MYERS

BESPOKE ESTATE AGENT

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5		75.0+ dB	
4		70.0-74.9 dB	
3		65.0-69.9 dB	
2		60.0-64.9 dB	
1		55.0-59.9 dB	

Flood Risk

Rivers & Seas - Flood Risk

CARL MYERS

BESPOKE ESTATE AGENT

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

Risk Rating: Low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Rivers & Seas - Climate Change

CARL MYERS

BESPOKE ESTATE AGENT

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

Environment

Radon Gas

CARL MYERS

BESPOKE ESTATE AGENT

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m³).

Local Area Road Noise

CARL MYERS

BESPOKE ESTATE AGENT

The data indicates the level of noise according to strategic noise sources across all traffic routes. This indicates a 25 house annual average noise level with separate weightings for the evening and the night periods.

Carl Myers Bespoke Estate Agent powered by eXp Testimonials

Testimonial 1

1. We have sold a number of properties using Carl Myers, We have never unhappy with the service we received. Carl Myers has been excellent . He fully talked us through the whole process and his manner as been both professional yet made us feel like we was his only vendors. His communication has been second to none , always coming back extremely quickly on telephone calls and e-mails often out of working hours. I would recommend him to anyone.

Testimonial 2

On this occasion, and because of the exceptional service I have received from Carl Myers I felt a review was needed. Carl has been there every step of the way giving me exceptional service and advice that has gone beyond my expectations. Carl is very knowledgeable and passes on information in a way that is very easy to understand and made whole process run very smoothly. I would highly recommend speaking to Carl.

Testimonial 3

I have sold 2 properties with Carl Myers, he was amazing. Especially with the hassle I had with the last property I sold. he managed to keep the buyer on side through a difficult time and grateful for all his hard work. he is a credit to the industry with impeccable customer service and hopefully we will work together on other properties I am selling in the future!!
