We use various photo editing services to enhance the photos of the property, including virtual staging (to show an empty property with furniture) and item removal services. This is done to assist house hunters in understanding the space, layout and potential style of the home without the owners’ belongings, which would not remain at the property on completion. Any digitally altered, virtually staged, or edited images including twilight also known as “dusk with lighting photos” are for illustrative purposes only. They do not form part of any offer, contract, or sale particulars, and should not be relied upon as an accurate representation of the property’s current condition, contents, fixtures, fittings, or final appearance.
