This beautifully designed detached home, extending to approximately 1,800 sq ft, perfectly combines contemporary living with excellent energy efficiency. With an impressive EPC 'A' rating, it benefits from an air source heat pump, solar panels with battery storage, underfloor heating across the ground floor, and an electric vehicle charging point. Only TWO homes now remain within this exclusive development.

Built by the highly regarded Attwell Developments Ltd, the property is part of an intimate collection of just four premium homes. Inside, the spacious entrance hall makes an immediate impression with its elegant herringbone LVT flooring. It leads to a comfortable sitting room and an impressive open-plan kitchen/dining/family room with bifold doors to the rear garden. The stylish, handleless kitchen is finished with high-quality granite worktops and a full suite of integrated appliances, including a double oven, induction hob, fridge/freezer, and dishwasher. A generous utility room provides additional practicality, alongside a convenient ground floor cloakroom.

Upstairs, there are four well-proportioned double bedrooms. The principal bedroom benefits from fitted wardrobes and a contemporary en-suite shower room, while the remaining bedrooms are served by a beautifully appointed family bathroom fitted with high-quality sanitary ware.

Externally, the property offers driveway parking for two vehicles with an EV car charging cable, a single garage with power, lighting, and rear access, and a private rear garden featuring a patio sun terrace and a newly seeded lawn.

This home also benefits from having flooring, solar panels and battery storage included.

#### Situation

The property is located on the outskirts of a popular village development that is close to shops.
