Brand New Eco Lodge

This beautifully designed eco-lodge blends quiet comfort with considered sustainability - the perfect second home for those who want to enjoy time away, without the full-time commitment.

What we love about this property

Equipped with solar panels, a modern heat pump system, and smart temperature controls you can manage via the app, the lodge is designed to be as efficient as it is inviting, warm when you arrive, and easy on both the planet and your running costs.

With three bedrooms and two bathrooms, there's room for friends and family, but also plenty of space to stretch out and enjoy it all to yourself. Outside, countryside views and fresh Anglesey air complete the experience.

Available through our Co ownership programme, you'll enjoy 70 nights of exclusive use per year in a lodge that's fully managed, beautifully maintained, and ready whenever you are. Our Co Ownership Program allows you to enjoy meaningful time in a beautifully appointed lodge, with all the benefits of ownership and none of the everyday responsibility.
