Energy Performance Certificate

Energy Performance Certificate (EPC)

Scotland

Dwellings

FLAT 1/2, 26 CRAIGIE STREET, GLASGOW, G42 8NQ

Dwelling type: Mid-floor flat
Date of assessment: 17 December 2025
Date of certificate: 17 December 2025
Total floor area: 35 m²
Primary Energy Indicator: 217 kWh/m²/year

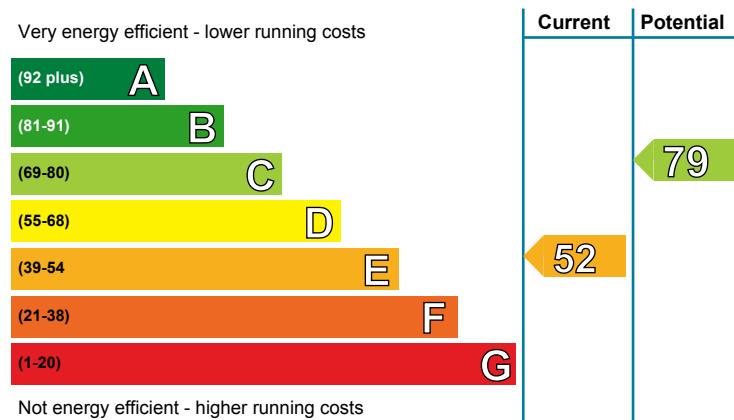

Reference number: 9140-2453-2020-2395-1321
Type of assessment: RdSAP, existing dwelling
Approved Organisation: ECMK
Main heating and fuel: No system present: electric heaters assumed

You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO₂ emissions by improving your home

Estimated energy costs for your home for 3 years*	£4,251	See your recommendations report for more information
Over 3 years you could save*	£2,880	

* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

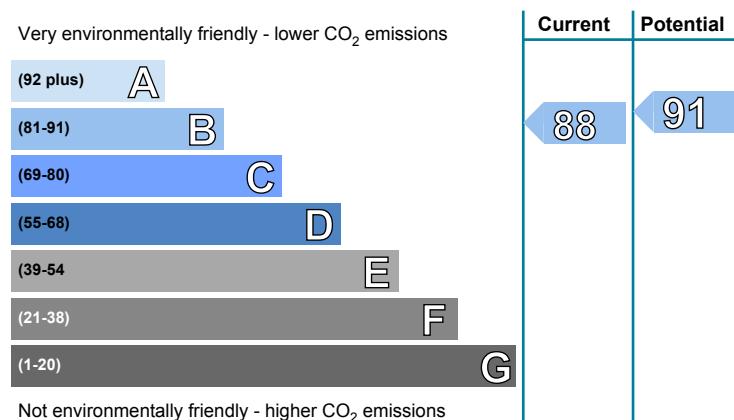

Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band E (52)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Environmental Impact (CO₂) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band B (88)**

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years
1 Internal wall insulation	£7,500 - £11,000	£861.00
2 Draughtproofing	£150 - £250	£129.00
3 Gas condensing boiler	£3,500 - £10,000	£1890.00

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit greenerscotland.org or contact Home Energy Scotland on 0808 808 2282.

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE

Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Sandstone, as built, no insulation (assumed) Solid brick, as built, partial insulation (assumed)	★★☆☆☆ ★★★★☆	★★☆☆☆ ★★★★☆
Roof	(another dwelling above)	—	—
Floor	(another dwelling below)	—	—
Windows	Fully double glazed	★★☆☆☆	★★☆☆☆
Main heating	No system present: electric heaters assumed	★★☆☆☆	★★★★★
Main heating controls	None	★☆☆☆☆	★☆☆☆☆
Secondary heating	None	—	—
Hot water	No system present: electric immersion assumed	★☆☆☆☆	★★★★★
Lighting	Below average lighting efficiency	★★☆☆☆	★★☆☆☆

The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO₂ emissions, running costs and the savings possible from making improvements.

The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 21 kg CO₂/m²/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 0.7 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 0.2 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings
Heating	£1,668 over 3 years	£654 over 3 years	
Hot water	£2,442 over 3 years	£576 over 3 years	
Lighting	£141 over 3 years	£141 over 3 years	
Totals	£4,251	£1,371	 You could save £2,880 over 3 years

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Recommended measures	Indicative cost	Typical saving per year	Rating after improvement	
			Energy	Environment
1 Internal wall insulation	£7,500 - £11,000	£287	D 62	B 90
2 Draughtproofing	£150 - £250	£43	D 63	B 91
3 Change heating to gas condensing boiler	£3,500 - £10,000	£630	C 79	B 91

Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to www.greenerscotland.org.

About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

1 Internal wall insulation

Internal wall insulation involves adding a layer of insulation to the inside surface of the external walls, which reduces heat loss and lowers fuel bills. As it is more expensive than cavity wall insulation it is only recommended for walls without a cavity, or where for technical reasons a cavity cannot be filled. Internal insulation, known as dry-lining, is where a layer of insulation is fixed to the inside surface of external walls; this type of insulation is best applied when rooms require redecorating. Further information can be obtained from the National Insulation Association (www.nationalinsulationassociation.org.uk).

2 Draughtproofing

Fitting draughtproofing, strips of insulation around windows and doors, will improve the comfort in the home. A contractor can be employed but draughtproofing can be installed by a competent DIY enthusiast.

3 Gas condensing boiler

Changing the heating to use a mains gas boiler that provides both space and water heating will save money, as mains gas is currently cheaper than the fuel being used at present. A condensing boiler is capable of higher efficiencies than other types of boiler, meaning it will burn less fuel to heat the property, but there may be exceptional circumstances making this impractical. Condensing boilers need a drain for the condensate which limits their location; remember this when considering remodelling the room containing the existing boiler even if the latter is to be retained for the time being (for example a kitchen makeover). This improvement is most appropriate when the existing heating system needs repair or replacement. Building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority building standards department and seek advice from a qualified heating engineer.

Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

LZC energy sources present: There are none provided for this home

Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit <https://energysavingtrust.org.uk/energy-at-home> for more information.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	1,956.48	N/A	N/A	N/A
Water heating (kWh per year)	2,861.67			

About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by ECMK (www.ecmk.co.uk), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

Assessor's name:	Alan Hudson
Assessor membership number:	ECMK302881
Company name/trading name:	Walker Fraser Steele
Address:	27 WATERLOO STREET GLASGOW G2 6BZ
Phone number:	07801301462
Email address:	alan.hudson@walkerfrasersteele.co.uk
Related party disclosure:	No related party

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

Advice and support to improve this property

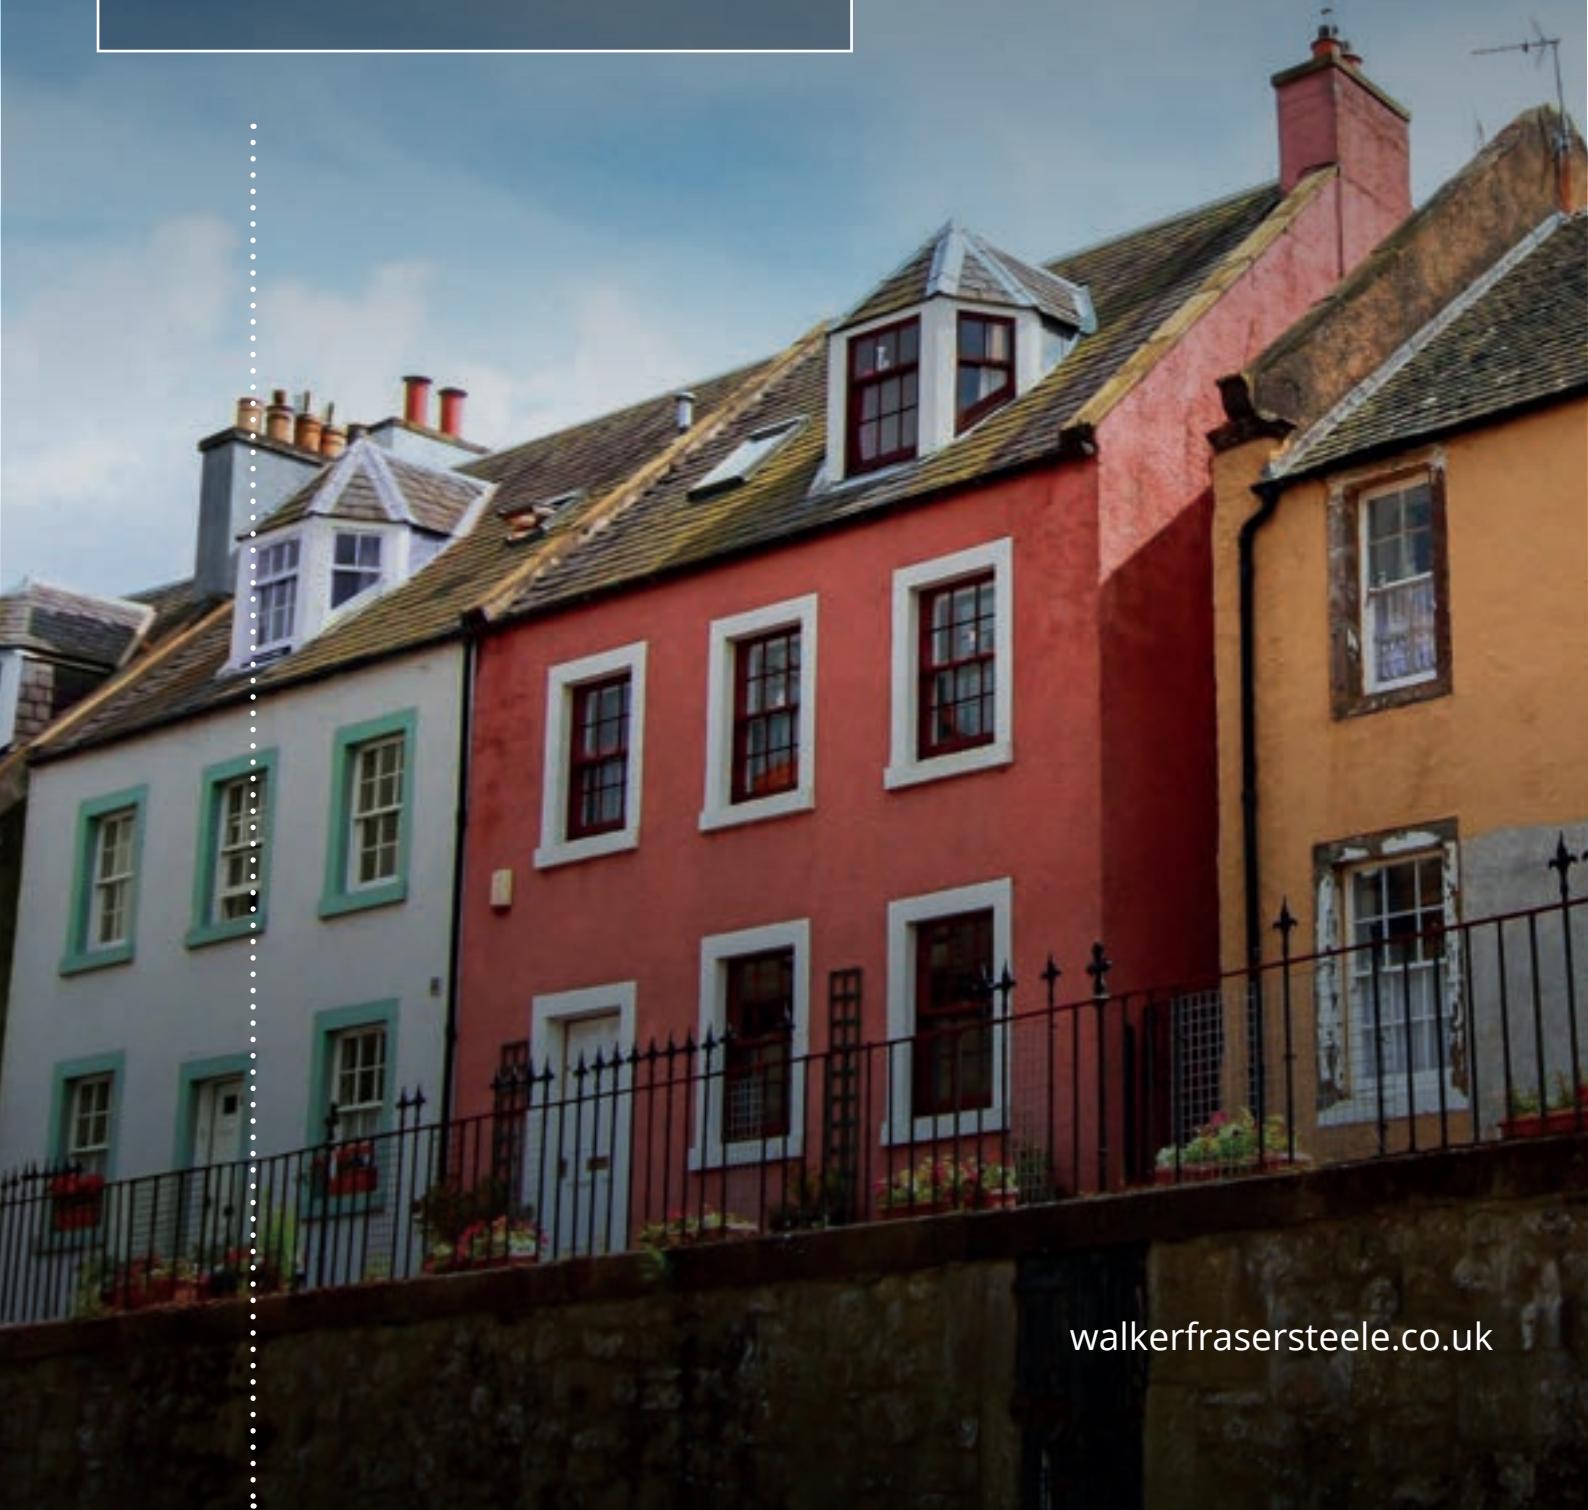

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit greenerscotland.org or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.

Single Survey

Single Survey

Property Address	1/2 26 Craigie Street Glasgow G42 8NQ
Customer	LSL
Date of Inspection	17/12/2025
Prepared by	Alan Hudson Walker Fraser Steele

TERMS AND CONDITIONS

PART 1 - GENERAL

1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who will have sufficient current local knowledge of the particular market to competently survey, value and report upon Residential Property.¹

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by checking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

Prior to 1 December 2008, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

1.3

LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential Surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to:

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

1.4

GENERIC MORTGAGE VALUATION REPORT

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

1.5

TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report will be prepared from information contained in the Report and the generic Mortgage Valuation Report.²

1.6

INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

1.7

PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

1.8

CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as

detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

1.9

PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

1.10

DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format.
- the "Market Value" is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- "prospective Purchaser" is anyone considering buying the Property.
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and
- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

¹Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Codes of Conduct

²Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Rules of Conduct.

PART 2 – DESCRIPTION OF THE REPORT

2.1

THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

2.2

THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

2.3

THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

- 2.3.1 Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
- 2.3.2 Category 2: Repairs or replacement requiring future attention, but estimates are still advised.
- 2.3.3 Category 1: No immediate action or repair is needed.

WARNING: If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

2.4

SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is

made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

2.5

ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

2.6

ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

2.7

VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- There are no particularly troublesome or unusual legal restrictions;
- There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.

1. INFORMATION AND SCOPE OF INSPECTION

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the Surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the Surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the Surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities will not be inspected or reported on.

Description	The property comprises a self-contained flat located on the first floor of a traditional four storey tenement block.
Accommodation	Entrance Hall, Living Room, Bedroom and Shower Room.
Gross internal floor area (sqm)	35 sq.m.
Neighbourhood and location	The property is located in the Govanhill area of Glasgow, several miles to the South of the City Centre amongst similar property types. There is a satisfactory range of residential amenities available in the area and there is a range of available transport links providing regular links with the City Centre.
Age	It is estimated that the property was built in about 1900.
Weather	At the time of the inspection, it was wet and overcast.
Chimney stacks	Visually inspected with the aid of binoculars where required. Visible chimney stacks are noted to be built in stone or rebuilt in brick. Visible flashings are formed in lead.

Roofing including roof space	<p>Sloping roofs were visually inspected with the aid of binoculars where required.</p> <p>Roof spaces were visually inspected and were entered where there was safe and reasonable access, normally defines as being from a 3m ladder within the property. If this is not possible, then physical access to the roof space may be taken by other means if the Surveyor deems it safe and reasonable to do so.</p> <p>Roofs are prone to water penetration in extreme storms but it is not always possible for surveyors to identify this likelihood in good or dry weather. All slated roofs in particular should be inspected and repaired by reputable tradesmen on an annual basis and especially after storms.</p> <p>The roof is pitched and covered with concrete tiles.</p> <p>Because of the height of the building and the configuration of the surrounding site, it has only been possible to view the front and rear roof slopes from a distance. The side roof slope could not be seen.</p> <p>The common roof void has not been inspected as the means of entry does not conform to standard surveying health and safety policies.</p>
-------------------------------------	---

Rainwater fittings	<p>Visually inspected with the aid of binoculars where required.</p> <p>Downpipes and gutters to the rear of the building have been replaced with plastic fittings. There is a wallhead mounted metal ogee style gutter to the front</p>
---------------------------	---

Main walls	<p>Visually inspected with the aid of binoculars where required.</p> <p>Foundations and concealed parts were not exposed or inspected.</p> <p>The outer walls are of sandstone construction lined internally with lath and plaster. The outer walls are approximately 600mm thick.</p>
-------------------	--

Windows, external doors and joinery	<p>Internal and external doors were opened and closed where keys were available.</p> <p>Random windows were opened and closed where possible. Doors and windows were not forced open.</p> <p>Windows are formed with timber framed double glazed units.</p> <p>Timber soffits and fascias are in place at the front wallhead.</p> <p>The entrance door to the flat comprises a single leaf timber door unit.</p>
--	--

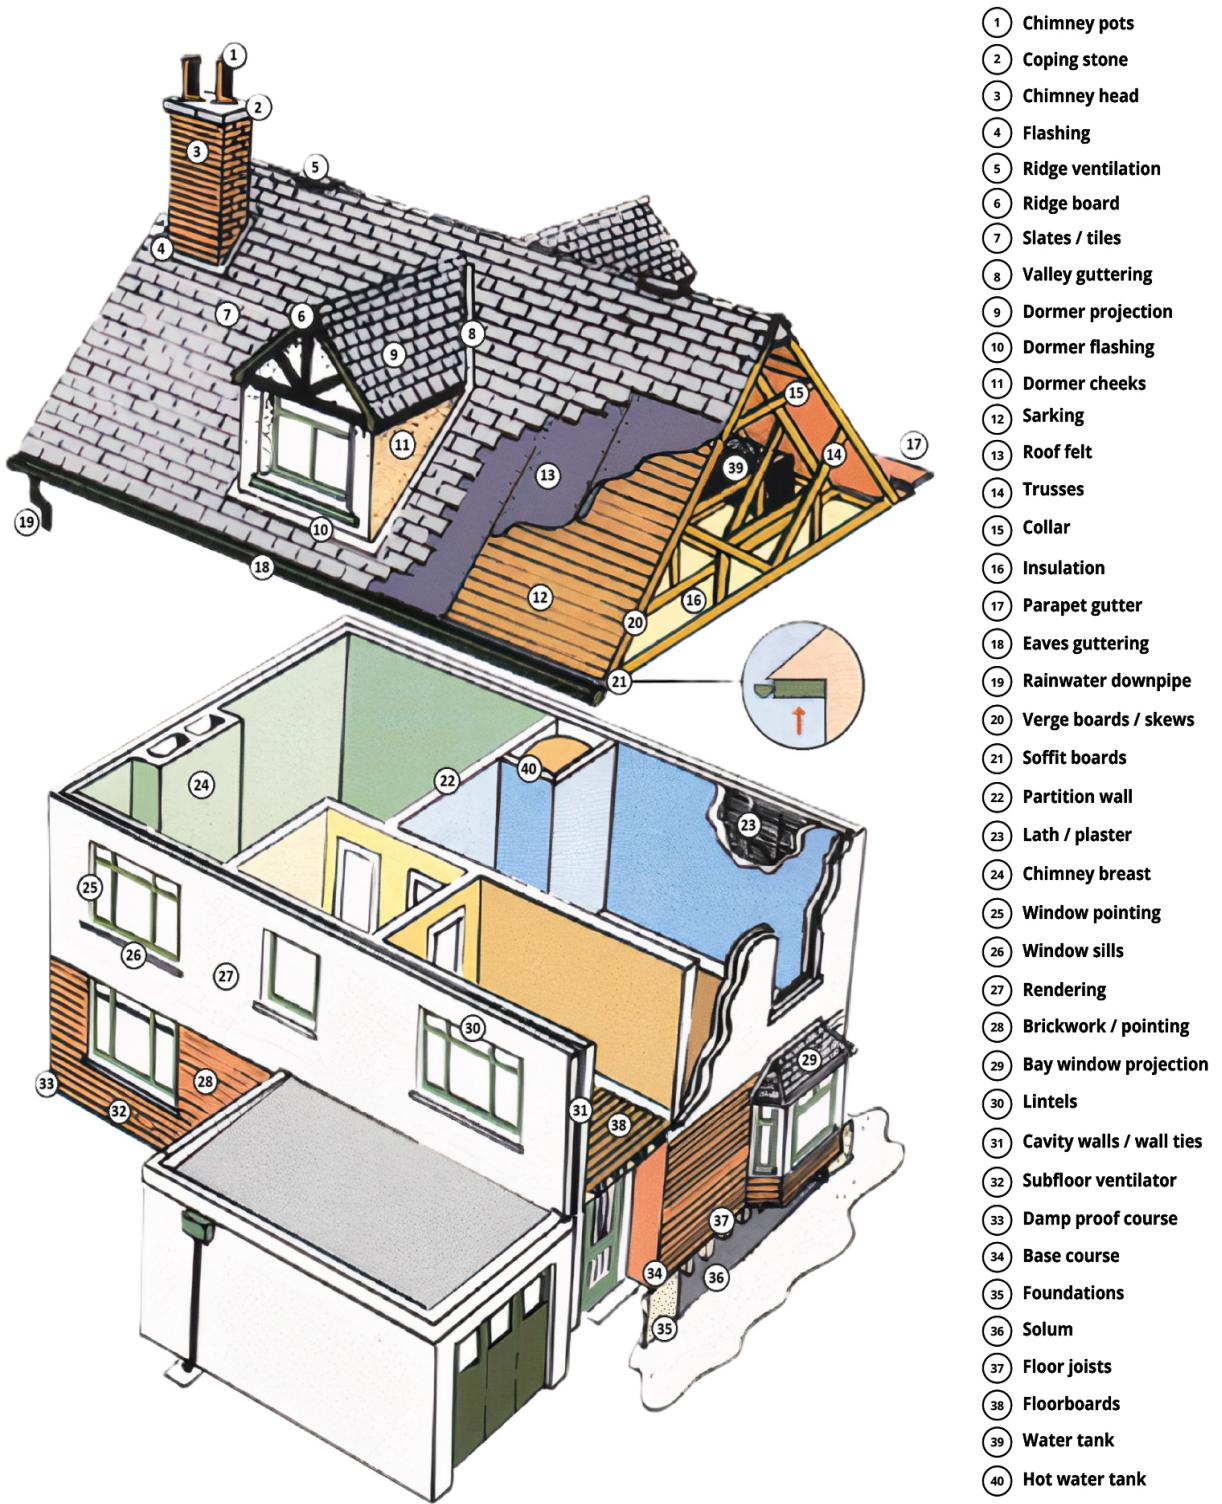

External decorations	Visually inspected External timber fittings are painted or stained.
Conservatories / porches	None
Communal areas	The building contains a common close that provides access to all levels of the building as well as out to the back court.
Garages and permanent outbuildings	None
Outside areas and boundaries	There is a communal garden/drying area located to the rear of the building. This area is laid to lawn and is bounded by masonry walls. There is a bin shelter located towards the rear of the plot.
Ceilings	Visually inspected from floor level The original ceilings appear to be formed with lath and plaster. The ceiling in the kitchen has been lowered and may be formed with plasterboard or a similar material.
Internal walls	Visually inspected from floor level. Using a moisture meter, walls were randomly tested for dampness where considered appropriate. Internal walls are generally of solid construction although a stud partition is present between the kitchen and living rooms. Internal partitions have a painted plaster finish.
Floors including sub floors	Surface of exposed floors were visually inspected. No carpets or floor covering were lifted. Sub-floor areas were inspected only to the extent visible from a readily accessible and unfixed hatch by way of an inverted "head and shoulders" inspection at the access point. Physical access to the sub floor area may be taken if the Surveyor deems it is safe and reasonable to do so, and subject to a minimum clearance of 1m between the underside of floor joists and the solum as determined from the access hatch. The floors are of suspended timber construction. Our inspection of floor surfaces has been restricted by the presence of floor coverings and furnishings throughout.

Single Survey

Internal joinery and kitchen fittings	The kitchen fittings comprise a range of wall and base units. There are timber doors, door facings and skirting boards in place.
Chimney breasts and fireplaces	None
Internal decorations	Visually inspected Internal surfaces are generally papered and painted. Ceramic tiles have also been utilised.
Cellars	None
Electricity	Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the Surveyor will state that in the report and will not turn them on. Mains electricity is connected. The consumer unit is located in the hall, but we note that the electricity meter has been removed.
Gas	Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the Surveyor will state that in the report and will not turn them on. Mains gas supply is connected with a meter located in the entrance hall.
Water, plumbing and bathroom fittings	Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation. No tests whatsoever were carried out to the system or appliances. Mains water supply is connected. Plumbing where visible is copper and plastic. The shower room contains a sanitary suite comprising shower cubicle with electric shower fitting, wash hand basin and a WC.

Heating and hot water	<p>Accessible parts of the system were visually inspected apart from communal systems, which were not inspected.</p> <p>No tests whatsoever were carried out to the system or appliances.</p> <p>There is no central heating system present in the property.</p> <p>AT the time of our inspection, we could find no form of water heating. The inspection of the kitchen was very limited due to the presence of debris and it is possible that some form of water heater could be concealed within a cabinet. If this is the case, it would be prudent to have that system completely overhauled</p>
Drainage	<p>Drainage covers etc were not lifted. Neither drains nor drainage system were tested.</p> <p>Drainage is assumed to connect into the public sewer.</p>
Fire, smoke and burglar alarms	<p>Visually inspected.</p> <p>No tests whatsoever were carried out to the system or appliances.</p> <p>There is now a requirement in place for compliant interlinked fire, smoke and heat detectors in residential properties. The new fire smoke and alarm standard came into force in Scotland in February 2022, requiring a smoke alarm to be installed in the room most frequently used for living purposes and in every circulation space on each floor. A heat alarm also requires to be installed in each kitchen. The alarms need to be ceiling mounted and interlinked. Where there is a carbon fuelled appliance such as a boiler, open fire or wood burner etc. a carbon monoxide detector is also required.</p> <p>The surveyor will only comment on the presence of a smoke detector etc. but will not test them, ascertain if they are in working order, interlinked and / or fully compliant with the fire and smoke alarm standard that was introduced in 2022.</p> <p>We have for the purposes of the report, assumed the system is fully compliant, if not then the appropriate compliant system will required to be installed prior to sale. This of course should be confirmed by your legal advisor.</p> <p>At the time of our inspection, we noted the presence of a heat alarm and smoke detector, but these do not appear to be operable.</p>
Any additional limits to inspection	<p>At the time of our inspection, the property was unoccupied, but furnishings and personal items were in place throughout.</p> <p>It has not been possible to gain a view of the side roof slope.</p>

Sectional Diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these items.

Single Survey

2. CONDITION

This section identifies problems and tells you about the urgency of any repairs by using one of the following 3 categories:

Category 1	1	Category 2	2	Category 3	3
No immediate action or repair is needed.		Repairs or replacement requiring future attention, but estimates are still advised.		Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	

Structural movement	
Repair category:	1
Notes	As indicated above the building has been affected by structural movement as evidence by the presence of cracks to the outer walls and a noticeable bulge at the mid height point of the exposed gable elevation. Remedial repairs have been carried out in the past involving the application of structural steel restraints at various parts of the outer walls. These works appear to have been carried out some time ago, perhaps as part of a comprehensive tenement refurbishment scheme.

Dampness, rot and infestation	
Repair category:	1
Notes	Damp meter readings were taken at various points throughout the property and in all the areas that we were able to test, the readings obtained were in a normal range. However as noted previously, there are some areas of flooring that are a little bouncy. It would be prudent to have these areas exposed in order to confirm the condition of floor joists as a precaution.

Chimney stacks	
Repair category:	1
Notes	There are no obvious issues to report although typical weathering has taken place.

Single Survey

Roofing including roof space	
Repair category:	1
Notes	<p>There are no significant issues noted to be affecting visible roof tiles although it is apparent that typical weathering has taken place and there is some excess moss growth.</p>

Rainwater fittings	
Repair category:	1
Notes	<p>Rainwater fittings appear to be performing adequately.</p>

Main walls	
Repair category:	1
Notes	<p>The outer walls have been affected by historical structural movement as evidenced by an obvious bulge at the exposed gable elevation and some hairline cracks. Structural repairs have taken place in the past in order to restrict further movement from taking place.</p> <p>In general terms the outer walls are in acceptable condition given their age and type of construction. Typical weathering of stonework has taken place.</p>

Windows, external doors and joinery	
Repair category:	2
Notes	<p>At the time of our inspection, the outer panes of glass at the windows were very grimy and it is not possible to tell visually if any of the edge seals are blown. Given the apparent age of the units, it would not be surprising if some of the seals have failed.</p> <p>The outer window frames are affected by excessive weathering.</p> <p>Timber soffits and fascias at the front are also affected by excessive weathering and peeling paintwork.</p> <p>The front entrance door has a worn appearance and would benefit from being overhauled.</p>

External decorations	
Repair category:	1
Notes	<p>Paintwork and stain to external timber components is generally weathered and would benefit from being overhauled.</p>

Conservatories / porches	
Repair category:	
Notes	Not Applicable
Communal areas	
Repair category:	1
Notes	The common close has been reasonably well maintained although there are some areas that would benefit from some cosmetic overhaul.
Garages and permanent outbuildings	
Repair category:	
Notes	Not Applicable
Outside areas and boundaries	
Repair category:	1
Notes	The common garden area has been adequately maintained.
Ceilings	
Repair category:	2
Notes	<p>The ceilings will require some maintenance. There are areas of damage and discoloured/stained plasterwork that may be an indication the water ingress from the flat above has occurred in the past.</p> <p>The lowered ceiling in the kitchen is very uneven and may require to be replaced.</p>
Internal walls	
Repair category:	2
Notes	internal partitions are generally sound, but there are areas of rough and cracked plaster that will require cosmetic overhaul

Single Survey

Floors including sub floors	
Repair category:	2
Notes	Floors are noted to be uneven in places and there are some areas where the floor is noted to 'bounce'. This can sometimes be an indication that there are defects affecting the floor joists. It would be prudent to have further investigations carried out with particular attention being paid to the floor in the vicinity of the shower room.

Internal joinery and kitchen fittings	
Repair category:	3
Notes	<p>Kitchen fittings are quite worn and very dirty. We would anticipate that these will be replaced.</p> <p>Timber components are also affected by excessive wear and tear and will require attention.</p>

Chimney breast and fire places	
Repair category:	
Notes	Not Applicable

Internal decorations	
Repair category:	3
Notes	Internal decorations are also in very poor condition and a complete overhaul is required.

Cellars	
Repair category:	
Notes	Not Applicable

Single Survey

Electricity	
Repair category:	3
Notes	<p>It is recommended that all electrical installations be checked every five years or on change of ownership to keep up to date with frequent changes in Safety Regulations. Further advice will be available from a qualified NICEIC / SELECT registered Contractor. It should be appreciated that only recently constructed or rewired properties will have installations which fully comply with IEE regulations.</p> <p>It will be necessary to have a new electricity meter fitted by a power supplier.</p> <p>The electrical system should be fully tested and recommissioned by an appropriately qualified electrical contractor.</p>

Gas	
Repair category:	3
Notes	<p>Trade bodies governing gas installations currently advise that gas appliances should be tested prior to change in occupancy and thereafter at least once a year by a Gas Safe registered contractor. It is assumed that gas appliances comply with relevant regulations.</p> <p>The system should be recommissioned and tested by an appropriately qualified contractor.</p>

Water, plumbing and bathroom fittings	
Repair category:	3
Notes	<p>Given the poor condition of the property, it would be prudent to have the plumbing installation fully overhauled by an appropriately qualified plumbing contractor.</p> <p>Sanitary fittings have been poorly maintained and should be replaced.</p>

Heating and hot water	
Repair category:	
Notes	Not Applicable

Drainage	
Repair category:	1
Notes	There are no obvious issues noted that relate to the foul or surface water drainage systems.

Single Survey

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the comments above for detailed information.

Structural movement	1	Category 1	1
Dampness, rot and infestation	1	No immediate action or repair is needed.	
Chimney stacks	1		
Roofing including roof space	1	Category 2	2
Rainwater fittings	1	Repairs or replacement requiring future attention, but estimates are still advised.	
Main walls	1		
Windows, external doors and joinery	2	Category 3	3
External decorations	1	Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	
Conservatories / porches			
Communal areas	1		
Garages and permanent outbuildings			
Outside areas and boundaries	1		
Ceilings	2		
Internal walls	2		
Floors including sub floors	2		
Internal joinery and kitchen fittings	3		
Chimney breasts and fireplaces			
Internal decorations	3		
Cellars			
Electricity	3		
Gas	3		
Water, plumbing and bathroom fittings	3		
Heating and hot water			
Drainage	1		

Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

3. ACCESSIBILITY INFORMATION

Guidance Notes on Accessibility Information

Three steps or fewer to a main entrance door of the property

In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

Unrestricted parking within 25 metres

For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit.

Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

1. Which floor(s) is the living accommodation on?	First
2. Are there three steps or fewer to a main entrance door of the property?	No
3. Is there a lift to the main entrance door of the property?	No
4. Are all door openings greater than 750mm?	No
5. Is there a toilet on the same level as the living room and kitchen?	Yes
6. Is there a toilet on the same level as a bedroom?	Yes
7. Are all rooms on the same level with no internal steps or stairs?	Yes
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	Yes

4. VALUATION AND CONVEYANCER ISSUES

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated re-instatement cost for insurance purposes.

Matters for a solicitor or licensed conveyancer

Where items of maintenance or repair have been identified, the purchaser should satisfy themselves as to the costs and implications of these issues prior to making an offer to purchase.

It is assumed that the roads and footpaths bounding the property have been adopted and are maintained by the Local Authority.

It is assumed that the property is held in "Absolute Ownership" and is unaffected by any onerous Title restrictions or burdens.

The layout of the property has been altered at some time in the past. Although we have no accurate information that would confirm when these works took place, we would estimate that they are at least 25 years old.

Estimated re-instatement cost (£) for insurance purposes

£170,000.00. (One Hundred and Seventy Thousand pounds.)

Valuation (£) and market comments

£60,000 (Sixty Thousand Pounds)

The valuation provided reflects the current condition and status of the property. Prevailing market conditions in the local area have also been considered.

In our opinion the subjects would form suitable mortgage security by a lending institution although the current value may be lower than is acceptable to some mortgage providers.

Garages & Outbuildings

Garages / Parking space(s):	None		
Permanent outbuildings:	None.		

Construction

Wall construction:	Solid Stone		
Roof construction:	Pitched tile		
Approximate year of construction:	1900		
Any evidence of alterations or extensions?	Yes		
Alterations or extension details:	The property has been altered / extended with an internal reconfiguration of the habitable space. Our valuation assumes these works have been carried out with all necessary consents. Legal advisors to confirm.		

⚠ Risks

Is there any evidence of movement to the property?	Yes
If yes, does this appear longstanding?	Yes
Are there any further risk factors?	No
If yes, please provide details:	Evidence of movement was noted in the form of cracking to masonry and bowed walls. This is believed to be longstanding and non-progressive. Structural repairs have been carried out previously.

⚠ Services

Electricity:	Mains	Gas:	Mains	Water:	Mains
Central heating:	None		Drainage:		Mains
Provide comments:	Noted that the electricity meter has been removed from the property				

⚠ Legal Matters

Are there any apparent legal issues to be verified by the conveyancer?	Yes
If yes, please provide details:	Shared Drive/Access. The conveyancer should obtain details. Our valuation assumes that the property is not adversely affected.

📍 Location

Location details:	The property is situated within a mainly residential area with an average level of local amenities.
-------------------	---

🚗 Roads

Road description:	The road has been adopted.
-------------------	----------------------------

💬 General Remarks

<p>The Building in which the property is located has generally been adequately maintained having regard to its age and type of construction. It appears that it may have been subject to a comprehensive refurbishment program some time ago.</p> <p>Internally the property has been neglected and is generally in poor condition and will require to be completely overhauled and refurbished.</p>

Property Questionnaire

PROPERTY QUESTIONNAIRE

Property address	26 Craigie Street Flat 1-2 Glasgow G42 8NQ
-------------------------	---

Seller(s)	LSL
------------------	-----

Completion date of property questionnaire	11 th December 2025
--	--------------------------------

Note for sellers

- Please complete this form carefully. It is important that your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the date of entry for the sale of your house, tell your solicitor or estate agent immediately.

PROPERTY QUESTIONNAIRE

Information to be given to prospective buyer(s)

1.	Length of ownership
	How long have you owned the property? N/A PROPERTY IN POSSESSION
2.	Council tax
	Which Council Tax band is your property in? (Please tick one) UNKNOWN <input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D <input type="checkbox"/> E <input type="checkbox"/> F <input type="checkbox"/> G <input type="checkbox"/> H
3.	Parking
	What are the arrangements for parking at your property? (Please tick all that apply) <ul style="list-style-type: none">• Garage <input type="checkbox"/>• Allocated parking space <input type="checkbox"/>• Driveway <input type="checkbox"/>• Shared parking <input type="checkbox"/>• On street <input type="checkbox"/>• Resident permit <input type="checkbox"/>• Metered parking <input type="checkbox"/>• Other (please specify): UNKNOWN
4.	Conservation area
	Is your property in a designated Conservation Area (that is an area of special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)? UNKNOWN

PROPERTY QUESTIONNAIRE

5.	Listed buildings	
	Is your property a Listed Building, or contained within one (that is a building recognised and approved as being of special architectural or historical interest)?	UNKNOWN
6.	Alterations/additions/extensions	
a.	<p>(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)?</p> <p><u>If you have answered yes</u>, please describe below the changes which you have made:</p> <p>UNKNOWN</p>	UNKNOWN
	<p>(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?</p> <p>If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking.</p> <p>If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them:</p>	UNKNOWN
b.	<p>Have you had replacement windows, doors, patio doors or double glazing installed in your property?</p> <p><u>If you have answered yes</u>, please answer the three questions below:</p>	UNKNOWN
	<p>(i) Were the replacements the same shape and type as the ones you replaced?</p>	UNKNOWN
	<p>(ii) Did this work involve any changes to the window or door openings?</p>	UNKNOWN
	<p>(iii) Please describe the changes made to the windows doors, or patio doors (with approximate dates when the work was completed):</p> <p>UNKNOWN</p> <p>Please give any guarantees which you received for this work to your solicitor or estate agent.</p>	UNKNOWN

PROPERTY QUESTIONNAIRE

7.	Central heating	
a.	<p>Is there a central heating system in your property? (Note: a partial central heating system is one which does not heat all the main rooms of the property – the main living room, the bedroom(s), the hall and the bathroom).</p> <p><u>If you have answered yes or partial</u> – what kind of central heating is there? (Examples: gas-fired, solid fuel, electric storage heating, gas warm air).</p> <p><u>If you have answered yes</u>, please answer the three questions below:</p>	UNKNOWN
	<p>(i) When was your central heating system or partial central heating system installed? UNKNOWN</p>	
	<p>(ii) Do you have a maintenance contract for the central heating system? If you have answered yes, please give details of the company with which you have a maintenance contract: UNKNOWN</p>	UNKNOWN
	<p>(iii) When was your maintenance agreement last renewed? (Please provide the month and year). UNKNOWN</p>	
8.	Energy Performance Certificate	
	Does your property have an Energy Performance Certificate which is less than 10 years old?	UNKNOWN
9.	Issues that may have affected your property	
a.	<p>Has there been any storm, flood, fire or other structural damage to your property while you have owned it?</p> <p><u>If you have answered yes</u>, is the damage the subject of any outstanding insurance claim?</p>	UNKNOWN UNKNOWN
b.	Are you aware of the existence of asbestos in your property? <u>If you have answered yes</u> , please give details:	UNKNOWN

PROPERTY QUESTIONNAIRE

10.	Services																									
<p>a. Please tick which services are connected to your property and give details of the supplier:</p> <table border="1"> <thead> <tr> <th>Services</th> <th>Connected</th> <th>Supplier</th> </tr> </thead> <tbody> <tr> <td>Gas or liquid petroleum gas</td> <td>UNKNOWN</td> <td>UNKNOWN</td> </tr> <tr> <td>Water mains or private water supply</td> <td>UNKNOWN</td> <td>UNKNOWN</td> </tr> <tr> <td>Electricity</td> <td>UNKNOWN</td> <td>UNKNOWN</td> </tr> <tr> <td>Mains drainage</td> <td>UNKNOWN</td> <td>UNKNOWN</td> </tr> <tr> <td>Telephone</td> <td>UNKNOWN</td> <td>UNKNOWN</td> </tr> <tr> <td>Cable TV or satellite</td> <td>UNKNOWN</td> <td>UNKNOWN</td> </tr> <tr> <td>Broadband</td> <td>UNKNOWN</td> <td>UNKNOWN</td> </tr> </tbody> </table>			Services	Connected	Supplier	Gas or liquid petroleum gas	UNKNOWN	UNKNOWN	Water mains or private water supply	UNKNOWN	UNKNOWN	Electricity	UNKNOWN	UNKNOWN	Mains drainage	UNKNOWN	UNKNOWN	Telephone	UNKNOWN	UNKNOWN	Cable TV or satellite	UNKNOWN	UNKNOWN	Broadband	UNKNOWN	UNKNOWN
Services	Connected	Supplier																								
Gas or liquid petroleum gas	UNKNOWN	UNKNOWN																								
Water mains or private water supply	UNKNOWN	UNKNOWN																								
Electricity	UNKNOWN	UNKNOWN																								
Mains drainage	UNKNOWN	UNKNOWN																								
Telephone	UNKNOWN	UNKNOWN																								
Cable TV or satellite	UNKNOWN	UNKNOWN																								
Broadband	UNKNOWN	UNKNOWN																								
b.	<p>Is there a septic tank system at your property? <u>If you have answered yes</u>, please answer the two questions below:</p> <p>(iv) Do you have appropriate consents for the discharge from your septic tank?</p> <p>(v) Do you have a maintenance contract for your septic tank? <u>If you have answered yes</u>, please give details of the company with which you have a maintenance contract:</p>																									

PROPERTY QUESTIONNAIRE

11.	Responsibilities for shared or common areas	
a.	Are you aware of any responsibility to contribute to the cost of anything used jointly, such as the repair of a shared drive, private road, boundary, or garden area? <u>If you have answered yes, please give details:</u>	UNKNOWN
b.	Is there a responsibility to contribute to repair and maintenance of the roof, common stairwell or other common areas? <u>If you have answered yes, please give details:</u>	UNKNOWN
c.	Has there been any major repair or replacement of any part of the roof during the time you have owned the property?	UNKNOWN
d.	Do you have the right to walk over any of your neighbours' property — for example to put out your rubbish bin or to maintain your boundaries? <u>If you have answered yes, please give details:</u>	UNKNOWN
e.	As far as you are aware, do any of your neighbours have the right to walk over your property, for example to put out their rubbish bin or to maintain their boundaries? <u>If you have answered yes, please give details:</u>	UNKNOWN
f.	As far as you are aware, is there a public right of way across any part of your property? (public right of way is a way over which the public has a right to pass, whether or not the land is privately-owned.) <u>If you have answered yes, please give details:</u>	UNKNOWN
12.	Charges associated with your property	UNKNOWN
a.	Is there a factor or property manager for your property? <u>If you have answered yes, please provide the name and address, and give details of any deposit held and approximate charges:</u>	UNKNOWN

PROPERTY QUESTIONNAIRE

b.	<p>Is there a common buildings insurance policy?</p> <p>If you have answered yes, is the cost of the insurance included in your monthly/annual factor's charges?</p>	UNKNOWN UNKNOWN
c.	<p>Please give details of any other charges you have to pay on a regular basis for the upkeep of common areas or repair works, for example to a residents' association, or maintenance or stair fund.</p> <p>UNKNOWN</p>	
13.	Specialist works	
a.	<p>As far as you are aware, has treatment of dry rot, wet rot, damp or any other specialist work ever been carried out to your property?</p> <p><u>If you have answered yes</u>, please say what the repairs were for, whether you carried out the repairs (and when) or if they were done before you bought the property.</p>	UNKNOWN
b.	<p>As far as you are aware, has any preventative work for dry rot, wet rot, or damp ever been carried out to your property?</p> <p><u>If you have answered yes</u>, please give details:</p>	UNKNOWN
c.	<p><u>If you have answered yes</u> to 13(a) or (b), do you have any guarantees relating to this work?</p> <p><u>If you have answered yes</u>, these guarantees will be needed by the purchaser and should be given to your solicitor as soon as possible for checking. If you do not have them <u>yourself please write below who has these documents</u> and your solicitor or estate agent will arrange for them to be obtained. You will also need to provide a description of the work carried out. This may be shown in the original estimate.</p> <p>UNKNOWN</p> <p>Guarantees are held by:</p> <p>UNKNOWN</p>	UNKNOWN

PROPERTY QUESTIONNAIRE

14.	Guarantees					
a.	Are there any guarantees or warranties for any of the following:					
	UNKNOWN TO ALL	No	Yes	Don't know	With title deeds	Lost
(i)	Electrical work	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(ii)	Roofing	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iii)	Central heating	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iv)	National House Building Council (NHBC)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(v)	Damp course	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(vi)	Any other work or installations? (for example, cavity wall insulation, underpinning, indemnity policy)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b.	<u>If you have answered 'yes' or 'with title deeds', please give details of the work or installations to which the guarantee(s) relate(s):</u> UNKNOWN					
c.	Are there any outstanding claims under any of the guarantees listed above? <u>If you have answered yes, please give details:</u>				UNKNOWN	
15.	Boundaries					
	So far as you are aware, has any boundary of your property been moved in the last 10 years? If you have answered yes, please give details:				UNKNOWN	

PROPERTY QUESTIONNAIRE

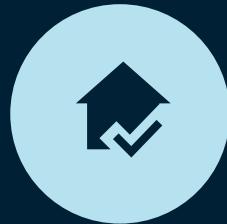

16. Notices that affect your property	
In the past three years have you ever received a notice:	
a.	advising that the owner of a neighbouring property has made a planning application?
b.	that affects your property in some other way?
c.	that requires you to do any maintenance, repairs or improvements to your property?
	<u>If you have answered yes to any of a-c above, please give the notices to your solicitor or estate agent, including any notices which arrive at any time before the date of entry of the purchaser of your property.</u>

Declaration by the seller(s)/or other authorised body or person(s)

I/We confirm that the information in this form is true and correct to the best of my/our knowledge and belief.
