A substantial four bedroom Victorian mews courtyard conversion offering an elegant and characterful home, set within an exceptional parkland environment.

The property forms part of a sheltered quadrangular arrangement of striking individual Victorian stabling, arranged around a charming cobbled internal courtyard. It sits within the wider Syerston Hall Park, a private and established setting of approximately 22 acres approached via a classical long driveway and comprising just sixteen individual homes set around the fine Georgian Syerston Hall.

The accommodation is both generous and versatile, combining period character with comfortable modern living. An entrance hall leads to a well appointed breakfast kitchen, a utility room and three good reception rooms, providing excellent flexibility for family life, entertaining or home working.

To the first floor are four generous bedrooms, two of which benefit from ensuite facilities, together with a family bathroom. The property further benefits from gas central heating and sealed unit double glazing.

Outside, the gardens are sheltered and partially walled, offering a private and attractive setting with a sun deck terrace ideal for outdoor dining and relaxation. A brick built double garage provides secure parking and storage.

Syerston is a small rural village on the edge of the Vale of Belvoir, well placed to the south of Newark-on-Trent and close to the River Trent. The village is known for RAF Syerston, which has long served as the RAF's glider training school. The surrounding villages of Elston and Flintham offer excellent additional amenities including village shops, public houses, primary schooling, community facilities and the nearby Eden Hall Day Spa.

Bingham and Newark-on-Trent provide a wider range of services, schooling and transport connections. Newark offers direct access to the A1 national road network together with a fast East Coast Main Line rail service to London King's Cross in approximately 80–85 minutes,

making the location particularly appealing for those seeking a rural lifestyle with strong connectivity.

This Victorian mews is constructed of brick under a pantile roof covering and is situated within the curtilage of a Grade II Listed building. The central heating is gas fired and the windows have wooden frames with sealed unit double glazing.
