20 Portsmouth Rd, Woolston, Southampton SO19 9AB |
enquiries@letsrentsouthampton.co.uk

02380 434448

A well-presented studio apartment offering bright, open-plan living and a practical layout throughout. The property features a spacious entrance lobby with useful storage, a modern bathroom, and a fitted kitchen with space for appliances including a fridge, washing machine/dryer and cooker.

The main living space is light and airy, with a large double glazed window allowing plenty of natural light, and offers flexible accommodation for both lounge and sleeping areas. The bathroom is fitted with a bath and shower over, wash basin and WC, with tiled walls and practical cupboard space.

Overall, this is a functional and well-laid-out studio apartment, ideal for a single occupant looking for convenient and easy-to-maintain accommodation.

Here's a slightly more Rightmove-style version as well:

Well-presented studio apartment offering bright and versatile open-plan living. The property benefits from a spacious entrance hallway with storage, a modern bathroom, fitted kitchen with space for

Energy performance certificate (EPC)

Flat 18 Elizabeth House Calmore Drive Calmore SOUTHAMPTON SO40 2ZW	Energy rating D	Valid until: 13 February 2030
		Certificate number: 9748-9067-6292-7810-9290

Property type **Ground-floor flat**

Total floor area **32 square metres**

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

This property's energy rating is D. It has the potential to be C.

[See how to improve this property's energy efficiency.](#)

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D
the average energy score is 60

Score	Energy rating	Current	Potential
92+	A		
81-91	B		
69-80	C		76 C
55-68	D	65 D	
39-54	E		
21-38	F		
1-20	G		

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, partial insulation (assumed)	Average
Wall	Solid brick, as built, partial insulation (assumed)	Average
Window	Fully double glazed	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer and room thermostat	Average
Hot water	From main system	Average
Lighting	Low energy lighting in 67% of fixed outlets	Good
Roof	(another dwelling above)	N/A
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	None	N/A

Primary energy use

The primary energy use for this property per year is 322 kilowatt hours per square metre (kWh/m²).

Additional information

Additional information about this property:

- Dwelling has access issues for cavity wall insulation
- Dwelling may be exposed to wind-driven rain

How this affects your energy bills

An average household would need to spend **£457 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £147 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2020** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 2,767 kWh per year for heating
 - 2,318 kWh per year for hot water
-

Impact on the environment

This property's environmental impact rating is D. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO₂) they produce each year.

Carbon emissions

An average household produces **6 tonnes of CO₂**

This property produces **1.8 tonnes of CO₂**

This property's potential production **1.0 tonnes of CO₂**

You could improve this property's CO₂ emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

Step	Typical installation cost	Typical yearly saving
1. Internal wall insulation	£4,000 - £14,000	£29
2. Floor insulation (solid floor)	£4,000 - £6,000	£42
3. Add additional 80 mm jacket to hot water cylinder	£15 - £30	£11
4. Low energy lighting	£10	£9
5. Condensing boiler	£2,200 - £3,000	£56
