Property

EPC - Certificate

Additional EPC Data

Property Type:	House
Build Form:	Semi-Detached
Transaction Type:	Marketed sale
Energy Tariff:	Single
Main Fuel:	Mains gas (not community)
Main Gas:	Yes
Flat Top Storey:	No
Top Storey:	0
Glazing Type:	Double glazing installed before 2002
Previous Extension:	0
Open Fireplace:	0
Ventilation:	Natural
Walls:	Cavity wall, filled cavity
Walls Energy:	Good
Roof:	Pitched, 250 mm loft insulation
Roof Energy:	Good
Main Heating:	Boiler and radiators, mains gas
Main Heating Controls:	Programmer and room thermostat
Hot Water System:	From main system
Hot Water Energy Efficiency:	Good
Lighting:	No low energy lighting
Floors:	Solid, no insulation (assumed)
Total Floor Area:	70 m ²

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Maps

Conservation Areas

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Maps

Council Wards

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5		75.0+ dB	
4		70.0-74.9 dB	
3		65.0-69.9 dB	
2		60.0-64.9 dB	
1		55.0-59.9 dB	

Flood Risk

Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

-  **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
-  **Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
-  **Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
-  **Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

-  **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m³).

Local Area

Road Noise

The data indicates the level of noise according to strategic noise sources across all traffic routes. This indicates a 25 house annual average noise level with separate weightings for the evening and the night periods.

Avocado Property

We are proud to be different, we want to create a legacy as the business that positively disrupted the industry and challenged the estate agent status quo.

Our clients all get direct access to business partners who live locally and are part of their local community. We work with local businesses to help promote their companies free of charge and we give back to teachers, nurses and armed forces servicemen/women.

We are passionate about changing the industry, passionate about helping people move on to the next chapter in their lives and passionate about property.

Testimonial 1

From start to Finish, working with Ollie has been a real pleasure. When looking for an estate agent we of course went to all the 'regular high street names' and the sales pitch felt rehearsed and scripted. Ollie came in with a real personal approach and a passion for the task and we knew straight away he was the right fit for us.

Ignore the 'big estate agents', Ollie will blow them out the water.

Testimonial 2

After a disappointing experience with a high street estate agent we chose to go with Ollie and did not regret it. We appreciated his candid advice on pricing and styling, recommendations for a house dresser and solicitor all of which resulted in several offers well over the asking price. I am convinced most other agents would have just let things plod along at a slow pace. I would 100% recommend Ollie at avocado.

Testimonial 3

I cannot rate Ollie enough, he is incredibly talented at what he does, he is not just an estate agent, he is amazing at marketing and knows how to get your property seen far and wide using social media. The videos and picture he does, even using the drone make a massive difference.

Honestly, he is an all-round top guy and will always be the estate agent I would recommend to everyone.
