About The Property

Looking for a fully refurbished home in the heart of Cardigan with modern open-plan living, landscaped gardens and space for family life or home working? This four-bedroom detached dormer bungalow combines stylish contemporary interiors with practical outside space, generous parking and a great West Wales location close to the coast of Cardigan Bay.

Set within a good-sized plot right in the centre of Cardigan town, this detached dormer bungalow has been completely refurbished and redesigned to create a modern home with bright, well-planned accommodation throughout. The property offers a smart balance between practical family living and contemporary styling, with open-plan living space at its heart, landscaped gardens and versatile bedroom arrangements across both floors.

The approach immediately gives a sense of the space on offer externally. A decorative gravel driveway stretches across the front of the property, providing ample off-road parking for several vehicles along with access to the garage, which benefits from an electric car charger. The addition of a raised planter bed enhances the property's overall appearance. The exterior has a clean and tidy appearance with crisp elevations, with the elevated garden to the rear carefully landscaped with stone gabion retaining walls, a raised planted bed, a lawn section and a generous paved patio designed for outdoor dining and entertaining.

A tiled porch leads into the main entrance hallway, where the contemporary finish becomes immediately apparent. Wooden flooring runs throughout much of the ground floor, complemented by underfloor heating, creating a practical and comfortable everyday layout.

Continued:

The open-plan kitchen, dining and living area forms the centrepiece of the home and works particularly well for modern family life. The living space to the front features a log burner set on a slate hearth, adding warmth and character to the otherwise clean-lined modern décor. The room flows naturally into the kitchen and dining area, which has been designed with both functionality and style in mind.

The kitchen itself is fitted with a range of sleek wall and base units topped with complementary work surfaces, along with a central breakfast island incorporating a stainless steel sink and drainer. Integrated Neff appliances include a fridge/freezer, dishwasher, multi-function oven and five-ring gas hob with extractor over, while built-in storage discreetly houses the Worcester boiler. The dining area sits beside wide

sliding doors opening directly onto the rear patio, allowing plenty of natural light into the room and creating an easy connection between the indoor and outdoor spaces during the warmer months.

An inner hallway off the main living area provides useful understairs storage and access to the remaining ground-floor rooms. Bedroom one is positioned to the front of the property and is a comfortable double room with wooden flooring and underfloor heating, while bedroom two overlooks the rear garden and could equally suit use as a study, hobby room or snug depending on requirements. The current setup works particularly well for anyone needing a dedicated work-from-home space without sacrificing bedroom accommodation.

The ground floor shower room has been

finished to a very good standard with contemporary tiling, a walk-in shower, a vanity unit with bowl sink, an illuminated mirror with integrated toothbrush charging points and a heated towel rail.

Outside, the rear garden has clearly been designed with low maintenance and usability in mind. The spacious paved patio offers plenty of room for outdoor seating and dining, while steps rise to the lawned garden bordered by a planted bed and timber fencing. The raised design creates distinct areas within the garden and gives the outside space a more structured feel.

A particularly useful addition is the detached outbuilding, which incorporates a utility room and outside WC. The utility provides plumbing for laundry appliances along with additional storage and workspace, helping keep the main kitchen free from everyday household clutter. The separate garage benefits from power and lighting, together with folding doors and a personnel door.

The first floor adds two further bedrooms and a family bathroom, making the property far more versatile than first impressions might suggest from the outside. Both upstairs bedrooms feature exposed beams, built-in storage and Velux windows, giving them a bright and airy feel despite the sloping ceilings.

Bedroom three is especially impressive, incorporating a bespoke built-in bed along with useful eaves storage and loft access. Bedroom four is another comfortable room which would suit a variety of uses, including guest accommodation, hobbies or teenage space.

The first-floor bathroom is finished in a modern style with tiled flooring and walls, a Velux window, a bath with fitted shower attachment, a wash hand basin, a WC and a heated towel rail.

The location is another key selling point. Positioned in

the heart of Cardigan town, the property is within easy reach of the town's independent shops, cafes, schools, supermarkets and everyday amenities. Cardigan remains one of the most popular towns in West Wales thanks to its mix of community feel, historic character and proximity to the coastline. Beaches and coastal walks around Cardigan Bay are only a short drive away, making this an appealing option both for full-time living and for those looking to enjoy more of the coastal lifestyle.

Homes finished to this standard, with flexible accommodation, landscaped gardens and excellent parking within Cardigan itself, are not always easy to find. Viewing is highly recommended to fully appreciate the space, finish and location on offer.
