IS IT A HOUSE OR AN APARTMENT

The truthful answer is it is a stunning two bedroom, ground floor apartment. But, here is a question; how many apartments can you extend? Well this one already has a large conservatory that has been added to create a dining/breakfast room and you could extend further. How many apartments have their own private entrance and not a possible unwelcome communal hallway? This one does. What about your own private enclosed garden? Very few, or very few when you compare what is on offer with this home. These are genuinely significant differences from the norm. Yet, there is still so much more; you also get a garage which is rare in many multiple blocks of flats. Externally, it has the appearance of a mews development, whilst the location, at the head of a cul-de-sac just around the corner from the many aced woodland of Heaton Mersey Common, is a perfect setting. Notably, you are within walking distance of the village centre and of the Metrolink and East Didsbury train station, let alone all the principal bus routes. The motorway network, the main Manchester to London line and the international airport are only a short drive away.

So, is it a house or an apartment? In truth it is a loved and cared for home, totally enjoyed by the current owners for everything we have told you about it.
