WHAT IS SHARED EQUITY?

Shared equity works by providing the home buyer with an interest free equity loan, which will form part of the deposit, for the property being purchased. The homebuyer then takes out a mortgage, as they usually would, on the balance of the property's purchase price.

The property will belong entirely to the homebuyer, who should be able to access better mortgage deals, which they would not otherwise been able to.

Our Shared Equity scheme is designed to assist people onto the housing ladder and own a home with as little as a 5% deposit..
