Landmark Living for Manchester

05

Set in between the greenery of the City River Park and the hustle and bustle of the city centre, this landmark development is home to 634 new apartments and townhouses in Manchester's emerging Red Bank neighbourhood.

The one, two and three bed homes are spread across a family of three towers and two podium buildings. The facade of the building has striking colours which reflects the view which can be seen from the floor-to-ceiling, 'picture-frame' windows that each apartment enjoys, making the character of the local area an integral part of every home.

Victoria Riverside marks a new chapter for this fast-growing city, putting you in prime position to embrace Manchester's shopping, art and culture, all while enjoying the trees, parks and open spaces of the City River Park which has received £51.6 million of central government investment.

Victoria Riverside marks the first phase of Victoria North (previously Manchester's Northern Gateway), the biggest renewal project Manchester's ever seen.

Jointly developed and funded by FEC and Manchester City Council, Victoria North is set to create 15,000 new homes across 155 hectares and seven neighbourhoods over the next 20 years, helping with the shortfall in housing in Manchester. The redevelopment project will create better-connected public spaces, new and improved transport links, and more homes, parks and retail spaces for the city's growing population.

At the heart of the regeneration is the new City River Park which covers 46 ha of new and improved parkland. The first phase covering St Catherine's Wood and the River Irk will be delivered utilising HIF investment by 2024 in line with anticipated completion of the Victoria Riverside scheme.

Victoria Riverside is at the forefront of the new, distinct residential neighbourhood at Red Bank and New Town, benefitting from its location within Manchester City Centre, but offering something new to its community.

Why Invest in Victoria Riverside?

The growing demand for new homes is testament to Manchester's resurgence as a global destination. The city has one of Europe's largest student populations, with over 100,000 students, and a graduate retention rate of over 60%. The increasing number of young professionals choosing to call Manchester home is attracting more and more national and international companies, with ITV and BBC at MediaCity in Salford, and the likes of Google, KPMG, Amazon, Hewlett Packard Enterprise, BP and AstraZeneca all setting up offices in the city.

As the job market grows, so does the residential market. Property prices are expected to increase by 17% between 2021 and 2025, while rental growth is forecast to hit 16.5% over the same period.

This marks Manchester as one of the UK's most exciting investment opportunities, with Victoria North playing a key role in the city's residential and commercial resurgence.

Don't miss this opportunity to be the first to invest in the largest regeneration the city has seen, find your home today at Victoria Riverside.

The Neighbourhood

Together with the 634 new apartments and townhouses, there's dedicated space for cafes, venues and bars to set-up shop along Dantzic street, and the newly redeveloped public realm is primed to host pop-up events, street food and more. Under the arches of the historic Red Bank viaduct, microbreweries like Blackjack and Marble run pop-up events while Angel Meadow Park is ideal for laid-back weekend strolls. And with the city centre less than 10 minutes' walk away, you'll never be short of things to do.

A Destination in the Making

Victoria Riverside, marks the start of the creation of the City River Park. At approximately 46 ha, it will become one of Manchester's largest city centre green spaces. The park will vary in character providing a diverse and active new recreational corridor for the community including parks and smaller amenity spaces.

City River Park will enhance existing habitats and create new habitats for wildlife and be guided by climate positive design to create results which as carbon neutral as possible. Connectivity and accessibility are also key ensuring high quality pedestrian and cycle movement within lush green spaces for active lifestyles and well-being.

Red Bank and New Town will provide the first phase of the City River Park. Over 35,000 sqm of new and improved parkland including St Catherine's Wood and the River Irk will be delivered in this first phase with HIF investment made by 2024 in line with anticipated completion of the Victoria Riverside scheme.
