Location

London House is located in the heart of the popular village of Charsfield which benefits from a primary school. There is a first class recreational area with tennis courts, play equipment, outside gym equipment, purpose-built barbeque and picnic area along with a multi-use games area. Charsfield also boasts a thriving village hall which plays host to many clubs and events including live music, a Friday night bar, exercise classes and is also the meeting place for action groups including sustainable energy to help ensure the longevity of this community spirited village. Charsfield is located in an excellent position for access to Framlingham (5 miles), Wickham Market (4 miles), Woodbridge (6 miles) and the county town of Ipswich (11 miles). Both Framlingham and Woodbridge are well known for their excellent schools in both the state and private sectors, with Framlingham having Thomas Mills High School and Framlingham College, and Woodbridge being home to Farlingaye High School and Woodbridge School. Woodbridge is located on the banks of the River Deben and offers a wide variety of shops and restaurants. The medieval market town of Framlingham, with its Norman castle, is also home to a good range of local shops and businesses. Ipswich has national stores, as well as trains to London's Liverpool Street, scheduled to take just over the hour.

Description

London House is a charming, spacious and much-loved family home with origins dating back to the mid-15th century. This is evidenced by some of the original timbers and period features. The property has been further extended with a Georgian frontage, more recently, the current owners have extended the house by creating a beautiful English Heritage oak-framed garden room to the rear of the property. This serves as the principal family sitting and dining area. In all, the property offers in excess of 3000 ft of accommodation.

The property offers both flexible and generously proportioned accommodation arranged over three floors. It provides excellent space for family living as well as a perfect venue for entertaining. Entering from the front into a welcoming reception hall, there are doors off to the two principal rooms; the sitting room and the family room. The sitting room features a central woodburning stove with a Georgian-style recess to the side and a sash window to the front. The family room (formerly the dining room) has a sash window to the front. From the reception hall there is also access to the cellar which provides a useful storage area for non-perishable goods (see agents notes). Again from the reception hall there is an opening to the inner hall, with brick laid floor, and giving access to the guest bedroom/study, rear hall, utility room and ground floor shower room.

Located at the rear of the property is the English Heritage oak garden room which is now used as the primary sitting/dining room. It has vaulted ceilings and natural stone flooring with underfloor heating as well. Large picture windows that take in the views of the garden and French style doors that open to the paved terrace. There is an opening from the garden room into the kitchen/breakfast room/snug which occupies the oldest part of the property and has many original exposed timbers. The kitchen area has a vaulted ceiling, brick floor and features a four oven AGA with a range of hand-built units crafted by Orwell Kitchens under a granite worktop. A breakfast bar divides the room from the informal sitting and dining area. On the first floor are four well-proportioned double bedrooms and a good size single bedroom all served by a family bathroom. The bathroom is fitted with a bath, separate shower, WC and wash basin with storage under and mirror above together with further wall units. The principal bedroom enjoys dual-aspect views over fields to the front and also benefits from range of fitted wardrobes. Bedroom four and bedroom five also have fitted wardrobes.

The property has oil-fired central heating, delivered via strategically positioned radiators throughout. The garden

room has a wet underfloor heating system. The upstairs bathroom is fitted with dry electric underfloor heating.

Outside

The property is accessed directly from the highway via a gravel driveway which extends to the side and rear of the house. This provides ample off-road parking for several vehicles and leads to a single detached garage and workshop with power and light. There is a purpose-built home office above and further useful store. To the side of the garage is a covered carport.

There is gated access from the driveway to the partially walled garden. To the rear of the property there is a large paved terrace ideal as a private seating area or for entertaining and from here there is access to a brick outbuilding. A pathway leads through the garden, which is mainly laid to lawn with established shrub and flower borders, and leads to a further garden area beyond where there is currently a chicken enclosure and a timber shed.
