“Life at *Holland Park Gate* is defined by a sense of *balance*”

Residence 21

Residence 21 at Holland Park Gate is a substantial three-bedroom lateral apartment positioned on the second floor, offering approximately 2,400 sq ft of internal space. The layout is defined by a wide, open-plan living, dining and kitchen area, creating a generous and well-balanced setting for both everyday living and entertaining.

A large private terrace of approximately 624 sq ft extends directly from the principal living space, providing a significant outdoor area that enhances the sense of openness and brings a natural connection to the surrounding environment.

The bedrooms are arranged along a separate wing, creating a clear distinction between social and private spaces. The principal suite includes a dressing room and en suite bathroom, while two further bedrooms and additional bathrooms offer flexibility for family life or guests.

Generous proportions throughout the residence create a calm and composed atmosphere, reflecting the understated character of Holland Park Gate, with the terrace forming an integral extension of the living space.
