A new front door opens into a welcoming entrance hall, with the bright and contemporary newly fitted kitchen offers a fresh, modern space with plenty of storage and preparation space. From here, the accommodation flows naturally into the spacious lounge/diner, a wonderfully light and versatile room with ample space for both comfortable seating and a dining area, making it ideal for everyday living and entertaining. At the opposite end of the bungalow are three bedrooms, including two generously sized doubles which enjoy wonderful views across the rear garden, alongside a third single bedroom that would also make an excellent home office, nursery or dressing room. The stylish newly fitted family bathroom has been thoughtfully redesigned, with the former separate bathroom and WC combined to create one larger and more practical space.
