Newton Fallowell are delighted to offer this truly special five-bedroom detached property, prominently situated on the corner of Roman Bank and Queens Walk. Occupying an extremely generous south-facing plot, this home offers excellent potential and long-term scope for improvement. The property provides ample ground-floor living accommodation, five double bedrooms, generous off-road parking, and an integrated double garage. To fully appreciate everything this home has to offer, an internal viewing is essential.

Upon entering the property, you are welcomed into a spacious entrance hall providing access to the ground-floor reception rooms, first-floor landing, and a convenient WC. The first door on the right leads into the bright and spacious living room, which spans the full width of the property and benefits from patio doors opening onto the garden. Further through the home is a separate, versatile reception room currently used as a dining room. To the rear, there is a large kitchen-dining room with French doors leading to the external patio area. Completing the ground floor is a separate utility room, which provides access to a secondary staircase.

The first floor offers five double bedrooms, with four located within the original section of the property. All are generous doubles, many benefitting from fitted storage. A three-piece family bathroom completes this area of the home. The property has been extended over the garage to create an additional double bedroom and shower room, accessed via a separate staircase. This area is extremely versatile and could be used for a variety of purposes.

The home is located just a short walk from Stamford town centre and is positioned on what are arguably some of the town's most desirable roads. While the property is currently well maintained throughout, it offers incredible scope and potential for remodelling or extending (subject to planning permission).

To the front, the property provides ample off-road parking for multiple vehicles, alongside an integrated double garage with a personnel door, power supply, and electric garage door. An inset footpath leads to the front entrance.

The rear garden is a true focal point of the home, enjoying a south-facing aspect and an impressive level of privacy thanks to mature trees and established borders, as well as backing onto a bungalow. The garden offers quiet, elevated views over Stamford's rooftops and is mainly laid to lawn, complemented by a separate patio area and access to both sides of the property.
