The utility room has space and plumbing for white goods, a butler sink, wall mounted gas boiler serving the domestic heating and hot water systems and a range of cabinets at base and eye levels. The stunning Kitchen/Breakfast room is the wow factor of this property and has been designed around a useful and practical central island. Space for an "American" style fridge freezer. A stainless steel 1.5 sink is built into the granite worktops with drainer. We then have the Orangery, which is a fantastic entertaining space which could also be used as a dining room, TV room or additional lounge. Double uPVC doors open onto the patio. There is a lantern roof which provides natural light and there is also underfloor heating. The formal Sitting Room is in our opinion is a good sized room and benefits from a gas fire with surround.
