Description

In a picturesque rural setting, Williams Barn is an outstanding four-bedroom barn conversion, set within the walls of a 110 year old agricultural building spanning over 2,500sq ft internally, with a 33' barn style outhouse separated from the main house by a west-facing courtyard. It combines the charm of the original structure with meticulous modern design, featuring exposed oak beams and brickwork alongside a refined material palette of stone, glass, and wood.

The entrance leads into a spacious reception hall and seamlessly connects to the heart of the home, an impressive double-height living/dining area, where the dramatic pitch of the ceiling is framed by stunning timber beams. Large windows flood the space with natural light, and the airy atmosphere is enhanced by a mezzanine level with a snug, accessed via an oak and glass staircase.

The beautifully appointed open-plan kitchen/dining and living area is designed with family living in mind. The space has a fantastic quality of natural light, care of large picture windows and glazed doors on both sides that fill the opening of the original double height barn doors. Glazed doors open onto both the courtyard and a small garden creating a seamless connection between indoor and outdoor spaces. The kitchen features a central island and sleek Shaker-style cabinetry running along the walls, housing high-end appliances, with a separate utility room and boot room.

The main bedroom suite and the second bedroom include original features and glazed doors opening onto the private courtyard. Two additional en-suite bedrooms offer privacy and comfort, while a family bathroom with a freestanding bath and his-and-her sinks provides a luxurious space to unwind. The barn boasts excellent energy efficiency, high insulation, an air-source heat pump, and underfloor heating throughout. Outside, there is ample parking, an EV charger and a Buildzone 10 Year Build Warranty.
