The communal gardens lead to the highly acclaimed Sydenham Hill Woods. Made up of approximately 11 hectares, Sydenham Hill Wood forms part of the largest remaining tract of the old Great North Wood. The wood is home to more than 200 species of trees and plants as well as rare fungi, insects, birds and woodland mammals.

The Woods are a unique mix of new and ancient woodland, with remnants of Victorian gardens and is London Wildlife Trust's oldest nature reserve.

In the 1980s, Sydenham Hill Wood was saved from development threats, a testament to the determination of local people to safeguard nature. It became London Wildlife Trust's first nature reserve in 1982 and Cox's Walk came under the Trusts management in 1998.
