A stunning conversion of a Grade II listed period farmhouse which has been sympathetically renovated and extended to a high standard, to create a beautiful traditional home retaining much of its original character blended with the benefits of modern living.

The property offers an excellent level of accommodation, with the main house extending to approximately 2,400 sq.ft. but benefits from an additional three bay coach house style garage block with around 365 sq.ft. of accommodation above, adding to the versatility of this individual home.

The main house boasts many features with exposed internal brick and stone elevations, beams and period fireplaces but it is in the process of a thoughtful programme of sympathetic "back to brick" renovation throughout, which will combine both traditional and modern elements, including a higher degree of efficiency, with improved insulation.

The accommodation will provide four main reception areas including a stunning open plan, L shaped, living/dining kitchen with part vaulted ceiling opening out into a breakfast room and snug, as well as having an attractive aspect into the rear garden. In addition, to the ground floor, there is a cloak room and useful utility leading off an initial entrance hall and to the first floor, there are four well proportioned bedrooms, two with ensuite facilities and generous family bathroom.

As well as the main accommodation the property also benefits from a detached coach house style three bay / carport with a versatile suite situated in the eaves above. This provide an initial bedroom/reception with ensuite facilities that could be utilised for a variety of purposes, making it ideal for teenagers, extended families or as a home office situated away from the main house.

The property occupies a pleasant corner plot, relatively generous by modern standards, with ample off road parking.

The property is expected to be completed in the summer of 2025 and viewing comes highly recommended to appreciate the location and accommodation on offer.
