A rare and exciting opportunity to acquire a generous building plot with full planning permission for a substantial, architect-designed four-bedroom detached split level bungalow, quietly positioned within the small rural hamlet of Trevanson, approximately 0.8 miles from the thriving market town of Wadebridge.

The plot forms part of an exclusive development of just three individual dwellings. Full planning permission was granted by Cornwall Council on 24th

November 2025 under application number PA25/03949 for the construction of three sustainable dwellings with associated works.

The approved single-storey dwelling offers approximately 2,556 square feet of generously proportioned accommodation, including the integral garage. The thoughtfully arranged split level interior is designed around a spacious entrance hall and provides four double bedrooms, an en-suite shower room and a family bathroom. The living accommodation includes a separate lounge together with an impressive open-plan kitchen and dining room, both designed with direct access to the outside. A utility room, separate cloakroom and integral garage complete the proposed accommodation.

Architecturally, the approved design combines traditional Cornish character with contemporary styling. The elevations incorporate natural stone, off-white cob-style render and burnt cedar-effect cladding beneath natural slate roofs. Large areas of glazing are intended to introduce an abundance of natural light, while photovoltaic panels and integrated wildlife features form part of the sustainable design.

This is an increasingly rare opportunity for a purchaser to undertake an individual self-build project and create a substantial contemporary home in a sought-after semi-rural setting.
