Estimated total monthly costs : £807.97

The more you buy the lower your rent will be. These costs will increase each year with inflation.

How does Shared Ownership work?

Shared Ownership is a government scheme that offers you the chance to buy a share of a property from a housing association, a non-profit-making body that provides homes. Because you only own a part of the property, you can buy it with a smaller deposit and mortgage.

A smaller mortgage means smaller repayments but you'll also need to pay:

- rent on the share of the property you do not yet own
 - monthly service charges
- Shared Ownership homes can be new builds, existing properties, houses or flats. All Shared Ownership properties are leasehold, even houses.
