St. Angela Road

Positioned within the ever popular Saints area of Heath, this traditional semi detached house presents a rare opportunity to acquire a home that has been carefully held and looked after over many years, now ready for its next chapter.

The house has a quiet, settled feel from the moment you step inside. Original features such as parquet flooring, stained glass windows and picture rails remain in place, giving a sense of its history, while the layout offers well balanced accommodation suited to both everyday living and future reconfiguration. There is clear scope to update and personalise, allowing a buyer to shape the property to their own style and needs.

To the rear, the garden extends further than first expected, with mature planting creating a sense of privacy and depth. A detached garage and rear lane access add a practical element that is often sought after but rarely found in this location.

Heath remains one of Cardiff's most established residential areas, known for its tree lined streets and strong sense of community. Both Heath Park and University Hospital of Wales are within easy reach, while local amenities can be found along Caerphilly Road and in nearby Whitchurch Village. The area is well served by reputable schools and benefits from excellent transport links into Cardiff city centre, making it a consistently popular choice for a wide range of buyers.

Offered to the market with no onward chain, this is a home with genuine potential in a location that continues to perform.
