Hello

Own Your Home with PPHA.
Park Properties Housing Association (PPHA) is proud to offer these beautifully designed Shared Ownership homes.

How It Works

Shared Ownership helps make owning a home possible for more people.

With this scheme, you start by purchasing a share of your home, requiring a smaller deposit and mortgage, while paying an affordable monthly rent on the remaining share.

Over time, you can increase your ownership share as your circumstances allow, and sell your share whenever you're ready to move on.

Making It Easy

At PPHA, we're here to make buying your Shared Ownership home simple and straightforward. Our team will help you understand the costs and determine what's affordable for you. If you choose to proceed, we'll be available to guide you every step of the way and answer any questions.

Shared Ownership

With Shared Ownership, you can buy a home in your own way – starting with a share that’s right for you – between 25% and 75%. You can choose to buy more later, when it suits your income. Buying a Shared Ownership Home means your mortgage deposit and monthly mortgage payments are smaller than if you bought your home outright.

In addition to any mortgage, there are two other main monthly payments for a Shared Ownership property:

1. Rent – this is paid on the share of your home that PPHA owns.

2. Service charge – this contributes to the maintenance, building insurance and management of the building and communal areas/estate charges.

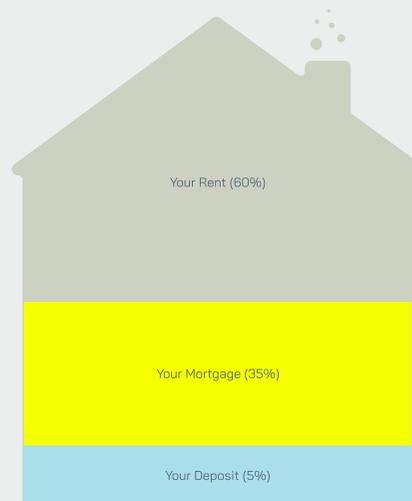

You will also need to pay the usual household costs, such as utility bills, council tax, and contents insurance. In the future you can buy more of your home, and even own 100%. The more you own, the less rent you’ll pay. You can sell your share at any time if you decide to move on.

Staircasing - Increasing Your Share

Over time, you can choose to buy more of your home, and this is called staircasing. You can do this in stages that suit your finances. You can purchase additional shares gradually or all at once. As your ownership grows, the amount of rent you pay to PPHA will reduce, and you may eventually decide to own your home outright.

Resale - Selling Your Shared Ownership Home

If you decide to move on, you can sell your share whenever it’s right for you. Your home will be valued to confirm the price of your share, and any potential buyer will need to meet the Shared Ownership criteria. Once a suitable buyer is found and approved, the sale continues just like any other property sale.

Example of purchasing a property valued at £200,000

- 1 Your 40% share of the property would be worth £80,000 so you’d need a 5% deposit of £4,000
- 2 A mortgage lender could loan you the remaining £76,000 to make up the full value of your 40% share
- 3 You will then pay subsidised rent to PPHA on the remaining 60% of the property you don’t own
