SITUATION & AMENITIES

The property is situated on high ground, surround by open countryside in a timeless and tranquil setting, enjoying the most fantastic views over the Taw Valley and unspoilt countryside. The village of High Bickington – which is about a mile away – is situated within the heart of the spectacular North Devon countryside. The village offers amenities including primary school, popular thatched pub, church, chapel, community hall, Post Office/shop, bus service and playing fields with Cricket and Football clubs, as well as the local Golf Course at Libbaton. The towns of Torrington, South Molton and Barnstaple are all within easy travelling distance and from the latter there is access to the North Devon Link Road, which leads through to the M5 Motorway at Jct.27. Tiverton Parkway offers a fast service of trains to London Paddington in just over 2 hours. Barnstaple town centre is within easy driving distance and offers an excellent range of amenities including both local and national High Street shops, banks, leisure facilities – including cinema and theatre, as well as North Devon District Hospital just on the periphery of the town. A National mainline railway links Barnstaple to Exeter St Davids, with further connecting services to London and beyond, and direct to Exeter Central for an excellent City shopping experience. This train service can also be accessed more closely at Umberleigh – about 15 minutes away. Exeter International Airport is situated at Clyst Honiton, East Devon – just 5 miles from Exeter City and 5 minutes from the M5 Motorway (Jct.29) offering both scheduled and holiday-chartered flights within the UK, to Europe and beyond. Dartmoor and Exmoor National Parks are both within easy access, as are the famous North Devon coastal resorts of Croyde, Saunton (also with Championship Golf Course), Woolacombe and the estuary village of Instow – which is also not far from Westward Ho! The area is well-served by excellent state and private schools including the reputable West Buckland, with local pick-up points and Kingsley at Bideford. There is access close by to a maze of footpaths, leading to many miles of open countryside. It should also be noted that there is no light pollution and the night skies and astronomical opportunities are amazing.

DESCRIPTION

Converted from a former barn in 2021, Crossland Farm presents elevations of painted render and composite cladding with double glazed windows, beneath a box profile/sheeting insulated warm roof. The construction carries an active architect's certificate and benefits from a high degree of insulation. The generous accommodation covers approximately 3085 sq ft and is bright, spacious, well-presented, versatile and could suit dual occupation by parts of the same family. It also futureproofs as there are bedrooms on the Ground Floor, as well as shower facilities. The property is currently arranged as having three bedrooms and four reception areas; however, this is easily reconfigured as five bedrooms and two reception rooms – subject to a buyer's preference. The accommodation is also arranged on a reverse-living basis in order that the principal living space enjoys the best of the virtually 360-degree panoramic views and sunsets over the Taw Valley below. The barn is set in a large plot, designed with ease of maintenance in mind and which represents a blank canvas for anyone wanting to design their dream garden. There is a 6" deep concrete pad already in place to accommodate a triple garage, for which planning consent was granted on 17th March 2026 under North Devon Council Planning Reference 81150. There is ample additional parking/motorhome space and the old dairy building closest to the entrance gates makes a useful workshop, etc. This is certainly one of those properties that needs to be viewed internally to be fully appreciated.

This has a concrete floor, is clad and has two double glazed windows with power and light connected. Adjacent to this is the aforementioned concrete pad, in readiness for the proposed garage, and behind this a former UPVC CONSERVATORY – now utilised as a GREENHOUSE. The driveway leads between the garage pad and the property, providing ample additional parking and turning space. The GARDENS surround the dwelling and are mainly laid to lawn, interspersed with young specimen trees. There are several raised beds, and the garden is fence-enclosed and dog-proof.
