THE DEVELOPMENT

LIVING CONNECTED TO NATURE IN MIJAS

In a privileged enclave of the Costa del Sol, in Mijas, this development is conceived for those seeking more than a home: a lifestyle connected to nature, design and sustainability. It offers 50 multi-family homes with one, two and three bedrooms, priced from €320,000.

It sits in a quiet, elevated residential area that combines open views, privacy and excellent connections to everything you need. A few minutes from the coast, close to golf courses, marinas, amenities and shopping areas, it offers a perfect balance between nature and convenience, in a setting that brings calm, light and a constant sense of wellbeing.

The homes have been designed for enjoying tranquillity and daily comfort. Their terraces, large and sunny, make the most of natural light all year round and become a perfect extension of the home.

Thanks to their orientation, all enjoy exceptional light that enhances the relationship between inside and out.

Among the features, the homes are delivered fully equipped, with furnished kitchens, an Airzone climate control system, aerothermal heating and home automation pre-installation, among many other qualities.

The complex also has storage rooms and parking spaces for cars and motorbikes, guaranteeing convenience and functionality.

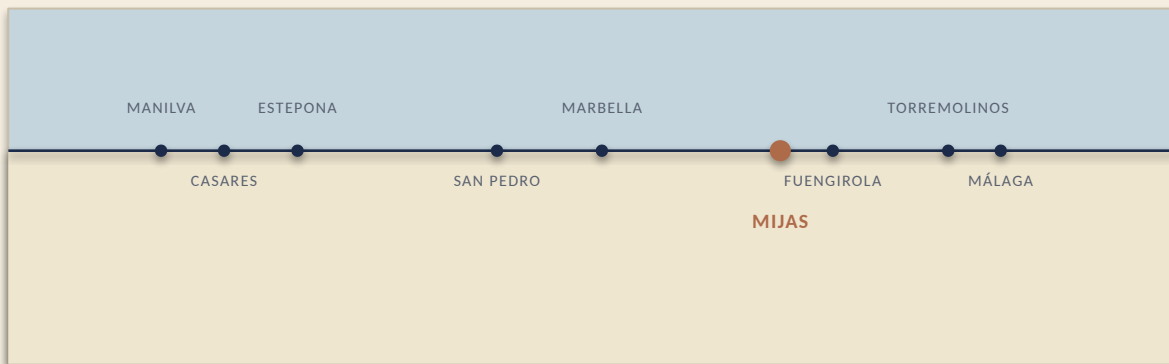

The communal areas have been designed for sharing, relaxing and self-care: from the exclusive Kitchen Club and Social Living to a complete Wellness Centre with indoor and outdoor gym, sauna and relaxation area. Spaces that enrich everyday life and strengthen the sense of community.

Thanks to its serene, well-connected location, its finishes and its carefully kept natural surroundings, this development is ideal as a main home, a second residence or an investment, in an area that combines the best of Mediterranean life with solid, growing demand.
