Being situated on Breedon Street, this extended property provides a lovely family home which has mature gardens at the rear and provides the potential for someone to purchase the property and then decide what alterations they might want to make to enhance the accommodation that is provided. Since being originally constructed the house has been extended to the side and rear and now provides well balanced ground floor living accommodation and bedrooms to the first floor and for the size and layout of the accommodation and privacy of the mature rear garden to be appreciated, we recommend that interested parties take a full inspection so they can see all that is included in this large home for themselves. To the first floor the extended landing leads to the five bedrooms, with there being the potential to create an en-suite between two of the bedrooms and the main bathroom, which over recent years has been updated and has a mains flow shower over the bath. Outside there is a walled area at the front and a drive in front of the integral garage and at the rear there is a long private, mature garden with lawns, a wild garden area at the bottom, mature trees, hedging and fencing to the boundaries and there is a most useful garden room/store and an outside w.c.
