Introduction

Situated within the desirable market town of Kington is this generously sized, four double bedroom, family home. The property has accommodation comprising; entrance hall, home office, sitting room, conservatory, dining room, kitchen, utility room, WC, integrated garage, four bedrooms, master with en-suite and a family bathroom. In addition there is an enclosed rear, tiered, garden with allotment section, parking for several cars and two secure outbuildings.

Property Description

Entry begins into a hallway with stairs to the first floor and double louvred doors providing useful hallway storage. To the left is the first reception room with front aspect. It is currently set up as a home office but could also be a play room if otherwise required. Under the stairs is doorway access into a generously sized sitting room with adjoining conservatory. The room is light and airy and benefits from having in-set ceiling speakers and a wood-burner with wood and slate surround for those cooler Winter months. A side door leads into a third reception room which would make an ideal formal dining room and at the far end of the room are sliding doors leading into a conservatory. The conservatory has underfloor heating and enjoys views of the private garden and the glorious rolling hills beyond. The dining room also enjoys these views due to its rear aspect. It has its own separate access back into the entrance hallway and seamlessly flows into the adjoining kitchen. The kitchen has been recently updated with a clean lined contemporary look. There is a tall, integrated fridge and freezer (side by side), sink with views of the hills, marble effect work tops and matching splash backs, electric oven and hob top. There is also an integrated dishwasher, deep pan drawers and breakfast bar facility seating two. Leading off the kitchen is access to an integrated garage, WC and laundry/utility room. The utility has a modern range of base units matching those in the kitchen. There is a sink and housing for a washing machine. The garage has lighting, power, insulation boards with plaster finish (opportunity for placement of chest freezers/additional fridges), up and over door and personnel door to the garden. The WC is off to one side with its own door, radiator and window out for added light and ventilation.

On the first floor are four bedrooms (master with en-suite), family bathroom, loft access on the landing and airing cupboard. The master bedroom has rear aspect to enjoy the wonderful views beyond the garden. There is room for an assortment of bedroom furniture and it benefits from having its own en-suite facilities. The en-suite is well-equipped and recently fitted with modern chrome fittings and stylish tiling. It consists of the following: bath, shower cubicle, WC and hand basin with vanity housing, chrome towel radiator, underfloor heating and window out. Bedroom two is a very generous size with front and rear aspect. There is ample room for a selection of bedroom furniture and the room could house a super-king bed or its own en-suite facilities if required. Bedroom three and four are both double bedrooms with front aspect and equally sized. The family bathroom is attractively styled and again recently fitted as is the theme with this lovely home. It is fully tiled with bath, WC and hand basin with matching vanity housing, separate shower cubicle, LED mirror/cabinet, chrome towel radiator, underfloor heating, window out and speaker in-built into the ceiling space above the bath.

Garden, Garage & Parking

To the front of the property, the current vendors have laid paver blocks to allow for the parking of several vehicles. To the left hand side (as you look at the property's frontage) is a newly laid tarmac surface which adjoins the personnel door of the garage which could also be useful in parking a car near to the garage.

To the rear and scooping round to the right hand side of the property is a secure garden with boundaries of wall and timber fencing. It is mainly laid to lawn with mature borders. There is an outbuilding of breeze block construction, tiled roof, window and door for garden storage.

Below the first tier of garden, marked by a red dwarf wall boundary, is a path leading down to an outbuilding of breeze block construction with metal doors. It has been used as storage for the well established garden allotment that the current vendors have also created here.
