DESCRIPTION

39 Plymouth Road presents a fantastic opportunity to acquire and renovate an attractive detached period home. Believed to date back to the 1950s and exhibiting many architectural features from the era, the property is coming to the market for the first time in over 50 years and is offered with no onward chain. Occupying an elevated position, the home enjoys a pleasant outlook across the town toward the surrounding countryside. The house offers well-proportioned accommodation across two storeys, featuring two reception rooms and a kitchen/breakfast room, as well as three first-floor bedrooms. The south-facing rear garden is complemented by an off-road parking space, a garage, and a workshop.

ACCOMMODATION

The reception spaces consist of a sitting room and a dining room. The sitting room is situated at the front of the dwelling and benefits from a dual aspect that captures the impressive views, along with a period fireplace—not currently in working order—which offers potential for restoration or alteration. The separate dining room is positioned to the rear with an outlook over the garden and a matching fireplace that is also currently non-operational. The kitchen features a range of wall and base units with space for appliances, as well as access to a utility room with a rear external door.

On the first floor, there are three bedrooms. Two of these are generous doubles, with the principal bedroom situated at the front of the house, enjoying a dual aspect and superb views. The third bedroom is a comfortable single. These rooms are serviced by a family bathroom featuring a shower over the bath, wash basin, and WC. Access to the loft is provided from the first-floor landing.

OUTSIDE

To the front of the dwelling, a pathway and steps lead from the road to the front door, surrounded by

attractive and vibrant planting. The path continues to the side of the house, providing access to the garage and the stores.

Making the most of its southern aspect, the rear garden combines a level lawn bordered by flower beds, providing plenty of space for decorative planting. A patio area is situated between the lawn and the house, offering an ideal space for outdoor seating and dining. A path extends to the side of the garden, leading through a gate to the parking area, which is suitable for one vehicle.

The garage is slightly angled to the lane to facilitate ease of access and is equipped with power and lighting. It also provides internal access to a separate adjoining workshop or store.
